## Product Description

### Manufacture Introduction

Meklon is a manufacturer of automotive repair materials with 20 years of industry experience. The factory covers an area of 3,000 square meters and is equipped with internationally advanced production equipment and a professional R&D team. It has passed ISO 9001 quality management system certification, ISO 14001 environmental management system certification and many other authoritative certifications to ensure stable and reliable product quality and green and environmentally friendly production processes. At the same time, we have established a complete supply chain management system, strictly controlled the procurement of raw materials and production processes, and have mature production processes and strict quality inspection standards, which can provide customers with efficient and stable product supply.

Our professional mixing formula app is a great winning magic weapon. Dealer partners can use it for free. It can quickly match car models and accurately output mixing solutions to help end customers reduce trial and error costs and improve construction efficiency. This not only enhances customer stickiness, but also allows you to establish a professional and reliable brand image in the local market and stand out easily.

By working with us, you will enjoy a highly competitive price system, sufficient supply guarantee and timely logistics delivery. At the same time, we also provide comprehensive technical support and market training to help you quickly master product advantages and sales skills. Joining us means walking with quality, advancing with innovation, and sharing the unlimited business opportunities in the car paint market! Looking forward to working with you to win the future together!
