

Wholesale High-Quality Factory Direct Sales 1k2k Lemon Yellow Car Paint

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Model Number: Meklon
- Minimum Order Quantity: 50L
- Price: 2.73USD/L-5.56USD/L
- Packaging Details: Box/Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500L per day

Product Specification

- Primer Required: Yes
- Formula: Mekloncolormix
- Chemical Resistance: Yes
- Chip Resistant: Yes
- Coverage: 1 Coat
- Indoor/outdoor: Indoor/Outdoor
- Usage: Car Paint, Plastic Coating
- Resistance: Good
- Water Resistant: Yes
- Safety Features: Non-toxic, Non-flammable
- Top Coat Required: Yes
- Product Usage: Exterior Car Cleaning
- Application: Brush, Roller, Or Spray
- Application Method: Spray

Product Description

How to restore car paint gloss with car paint (using Meklon lemon yellow as an example)

Applicable situation: When traditional cleaning, polishing, and waxing cannot repair severely faded, oxidized, or dull car paint (such as aged varnish, UV damage), re spraying high gloss car paint (such as Meklon lemon yellow) can restore mirror level brightness.

Why choose car paint:

Long term repair: The paint is chemically bonded to the surface of the car paint, providing long-lasting color, depth, and factory grade gloss (far exceeding temporary solutions such as wax/sealant).

The advantages of Meklon lemon yellow:

Ultimate highlight: high refractive pigment+smooth resin, presenting a mirror reflective effect after drying, more eye-catching than the original factory faded paint.

Super saturated color: pure organic yellow pigment, bright color (close to fluorescent yellow), 98% matching original color or custom personalized color.

Strong durability: UV resistance, corrosion resistance, anti fading/powdering/cracking, suitable for harsh environments such as high temperature/high humidity, and further protected by a clear varnish layer.

Easy construction: Supports 1K (fast drying, DIY friendly) and 2K (industrial grade high hardness, professional preferred), 15 minute surface drying, 1-hour practical work, efficient and time-saving.

Operation steps: Cleaning → Polishing (optional) → Primer (optional) → Spray lemon yellow base color → Clear varnish sealing (recommended) → Polish and brighten after 24 hours.

Effect: The car paint restores high gloss, with a bright lemon yellow color that catches the eye, balancing aesthetics and durability, suitable for refurbishment or customization.
