

Original Factory Grade Effect Hot Selling High Cost-Effective Scratch Resistant And Wear-Resistant Bright Red Car Repair Paint

Our Product Introduction

for more products please visit us on refinishcarpaint.com

Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Model Number: Meishilianke
- Minimum Order Quantity: 50L
- Price: 2.73USD/L-5.56USD/L
- Packaging Details: Box/Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500L per day

Product Specification

- Professional Quality: Provides Professional Quality Finish
- Scrub Resistance: Yes
- UV Protection: Provides UV Protection
- Application: Various Applications
- Product Type: Automotive Paint
- Curing Time: Varies By Product
- Coverage: High Coverage
- Function: Cleaning
- Coating: Acrylic
- Material: Acrylic Resin
- Package: Can/carton
- Primer Required: Yes
- Product: Ready Mixed Paint

Product Description

Meklon Red Car Repair Paint vs Original Factory Grade Car Paint

Comparing dimensions	Original factory grade car paint (new car spray coating)	Meklon Red Car Repair Paint
Production environment and process	Spraying in a dust-free constant temperature workshop, combined with robot precision coating and high-temperature baking (curing above 120 °), the film density is extremely high, and the color and glossiness reach the "zero defect" standard.	Suitable for repair shop/DIY scenarios, curing at room temperature or low temperature baking (60-80 °), approaching the original factory effect through optimized formula, meeting daily usage needs.
Difficulty of color matching	The original color code is customized based on the vehicle model/year/batch (such as "Pearl Red" and "Metal Red" containing special effect pigments), with high global uniqueness, and precise traceability of the original factory data is required during repairs.	Meklon provides a 98% OEM color matching database, covering mainstream models in bright red series (such as Porsche Cherry Red and Mazda Soul Red), and quickly restores colors close to the original factory color through a color matching system.
Price cost	Original factory paint is an exclusive supply chain product for car companies, with a very high unit price (repair and replacement costs can reach thousands of yuan), and is only available for use in 4S stores.	Meklon is directly supplied by an independent manufacturer, eliminating intermediate links, and the unit price is only 30% -50% of the original factory paint, with outstanding cost-effectiveness.
Construction flexibility	Relying on professional equipment and technical personnel (such as robot spraying+multi-layer baking), ordinary repair shops find it difficult to replicate the original factory process.	Supports 1K/2K dual system (DIY optional 1K fast drying, professional choice 2K high hardness), compatible with spray guns/manual repair, low construction threshold, high repair efficiency.

Tinting Guide

MK-2K Topcoat Series

Product Code	100%	1:1 202	Features
202			Standard paint effect
203			The lightest color in the MK-2K series

What to choose Meklon instead of original paint?

Although the original factory paint is "perfect", it is difficult to touch: the price is high, the construction relies on exclusive equipment from 4S stores, and the maintenance cost for ordinary car owners is too high; Meklon repair paint "flat replacement upgrade": achieving 98% original factory effect at 1/3 price, with comprehensive benchmarking of color, durability, and glossiness, flexible construction, and guaranteed after-sales service; Suitable for all scenarios: Whether it's repairing minor scratches on luxury cars or replicating classic car factory colors, Meklon's bright red touch up paint can make your car look brand new, with both cost-effectiveness and quality! Conclusion: If you want high cost-effectiveness and a repair effect close to the original factory, [Meklon](#) bright red repair paint is a smarter choice!
