

High Expressiveness High Gloss And Wear-Resistant Pink Car Spray Paint

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Model Number: Ferrari
- Minimum Order Quantity: 50L
- Price: 2.73USD/L-5.56USD/L
- Packaging Details: Box/Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500L per day

Product Specification

- Formula: Mekloncolormix
- Professional Quality: Provides Professional Quality Finish
- Coats: 2-3
- Color Options: Multiple
- Application Method: Spray
- Chip Resistant: Yes
- Application Area: Chemical
- Manufacture: Meklon
- Usage: Car Paint, Plastic Coating
- Uv Resistant: Yes
- Material: Acrylic
- State: Liquid Coating

Product Description

1, Why choose Meklon high gloss and wear-resistant pink car paint?

This is a pink car paint that subverts traditional "high aesthetics+strong performance", specially designed for car owners who pursue individuality and quality!

Cool highlights:

- 1.Mirror like high gloss texture:**The glossiness of the paint film is $\geq 95\text{GU}$ (measured at 60°), with a smooth reflective effect like a mirror, which is more advanced than ordinary pink paint and easily reproduces the exquisite feeling of the original paint surface of luxury cars.
- 2.Wear resistant, scratch resistant, and ultra durable:**The 2K system paint film has a hardness of 2H-3H (ordinary pink paint only HB-B), is resistant to stone impact and car wash brush friction, and is not easy to leave marks after long-term use, bidding farewell to frequent paint repair troubles.
- 3.UV resistant and non fading:**With the addition of double UV absorbers, it will not turn gray or yellow after long-term exposure to sunlight (with a 5-year color retention rate of $\geq 90\%$ in laboratory tests), and can also remain bright and long-lasting in tropical/plateau areas.

2, Full process of usage method

Step	Operation details
1. Surface pretreatment	Cleaning-polishing-masking
2. Primer treatment	Rust proof primer - filling primer
3. Spraying of pink primer	Mixing and Spraying
4. Drying and polishing	Drying - Fine Grinding
5. Clear varnish protective layer	Spray varnish - curing
6. Final adjustment	Polishing - Cleaning
