## Product Description

### product positioning

This car repair paint belongs to the professional level car paint repair product, designed specifically to match the original purple car paint. Adopting two formulation systems, **1K** (single component) and **2K** (two-component), to meet the needs of different maintenance scenarios.

### core features

#### Self leveling technology:

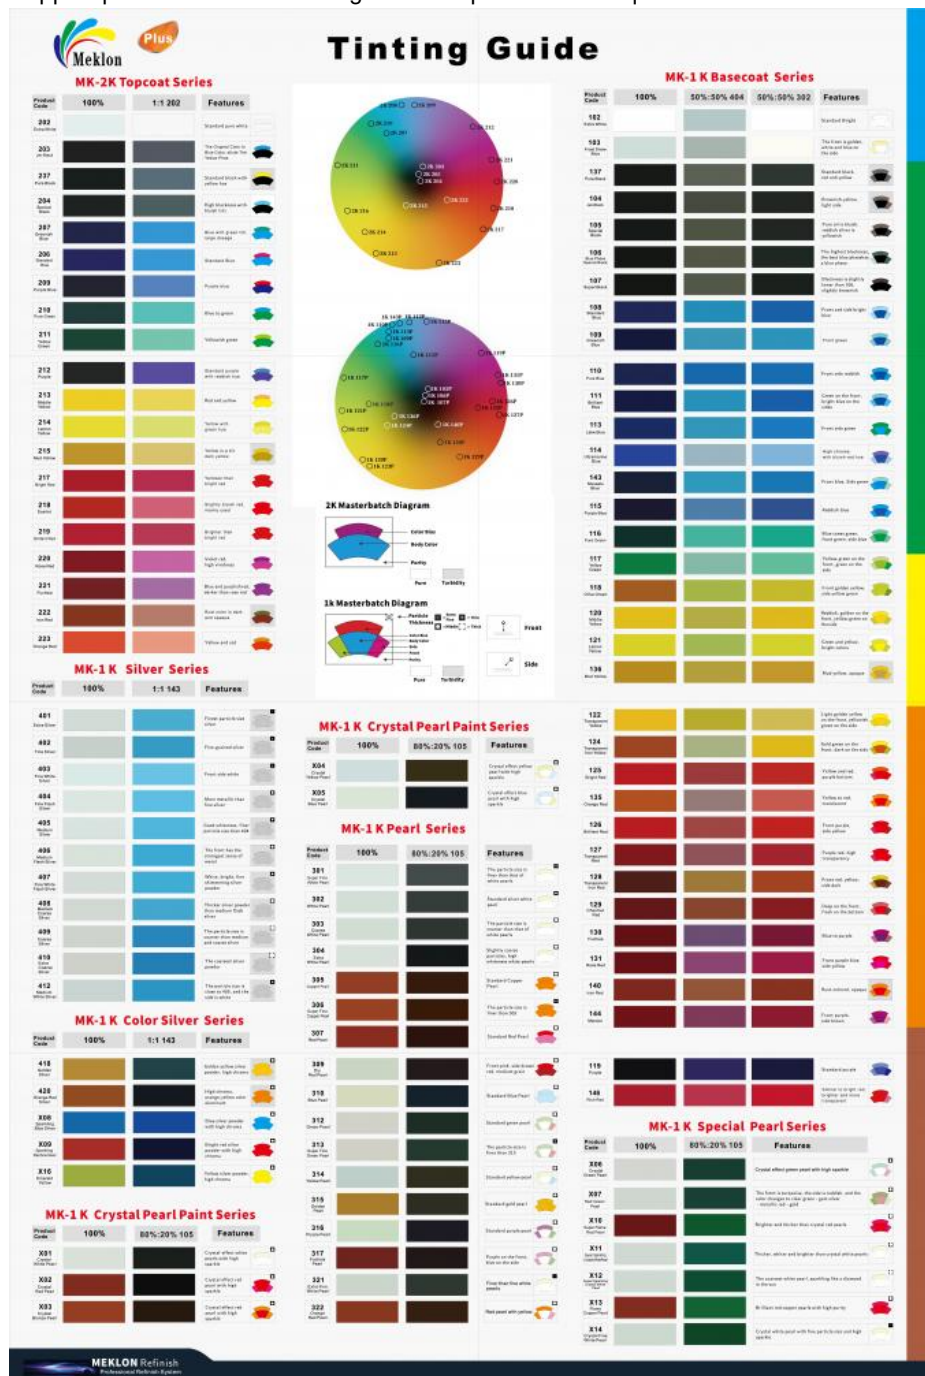

Has excellent leveling performance and can automatically form a smooth surface after spraying  
Reduce orange peel phenomenon and lower the workload of later polishing

#### Flash Purple Effect:

Contains special effect pigment particles, perfectly restoring the original factory metal glitter effect  
Color saturation and layering meet the original factory standards

#### Color matching:

Developed through a professional color matching system to accurately match mainstream automotive brands with purple hues  
Support personalized fine-tuning to meet special color requirements

### Product advantages

*Convenient construction:* Simplify traditional multi pass spraying process

*High coverage:* reduce the number of spraying times and improve work efficiency

*Strong durability:* excellent UV resistance and weather resistance

### **Applicable scenarios**

Partial repair of purple series cars

Vehicle color change and spray coating

Repair of plastic parts such as bumpers

### **Supporting suggestions**

*Suggest using Meklon auxiliary material products in combination:*

Professional spray gun (recommended caliber 1.3-1.4mm)

600-800 grit sandpaper for surface treatment

The supporting varnish system completes the final protection
