

Advanced Metal Money Gray Car Spray Paint Popular Graphite Silver Adjustment Scratch Resistant Wear Resistant UV Resistant

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Model Number: Honda
- Minimum Order Quantity: 50L
- Price: 2.73USD/L-5.56USD/L
- Packaging Details: Box/Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500L per day

Product Specification

- Chemical Resistance: Resistant To Chemicals
- Number Of Coats: 2-3
- Gloss Retention: High
- Product: 1K Repair Paint
- Low Voc: Yes
- Application Method: Spray
- Voc Level: Varies
- Uv Resistance: Yes
- Application: Various Applications
- Usage: Car Paint, Plastic Coating
- Durability: Long-lasting
- Voc: Low
- Highlight: metal car spray paint,
scratch resistant car paint,
UV resistant refinish paint

Product Description

Core Features

Advanced metallic texture

Metal Particle Technology: Using high-quality metal particles, the spray paint presents a unique metallic luster and texture after application. This metallic effect not only enhances the appearance grade of the vehicle, but also endows the paint surface with rich reflective effects under different light angles, making the car look more dynamic and luxurious.

High glossiness: With a high glossiness surface effect, it enhances the overall visual appeal, making the vehicle shine brightly in the sunlight and improving the overall aesthetics.

Money Grey System

Unique color tone: Money gray is a neutral color tone that combines gray stability and metallic luster, symbolizing wealth and high-end quality. This color scheme is not only classic and versatile, but also adaptable to various car models, enhancing the overall temperament of the vehicle.

Graphite Silver Tone Adjustment: This spray paint provides flexible tone adjustment function, which can be fine tuned to graphite silver tone according to customer needs, meeting the personalized color requirements of different customers and ensuring perfect matching with the original color or specific style.

Excellent protective performance

Scratch resistance: It has extremely high scratch resistance and can effectively resist scratches and wear during daily use, such as key scratches, minor collisions, etc., maintaining the integrity and aesthetics of the paint surface and reducing repair frequency.

Wear resistance: The paint film has excellent wear resistance, which can maintain its luster and texture during long-term use, resist friction, car washing, and other daily wear and tear, and extend the service life of the paint surface.

UV resistance: Contains efficient UV absorbers that can effectively resist UV damage, prevent paint from fading, powdering, or aging due to prolonged exposure to sunlight, and ensure long-lasting bright colors and a shiny finish.

High quality and durability

Durable and long-lasting: Combining advanced resin technology with metal particles, it provides long-term protection and aesthetic effects, ensuring that the paint surface remains stable under various climatic conditions and is not easily affected by environmental factors.

High quality formula: Using high-quality raw materials to ensure the adhesion, leveling, and overall construction performance of spray painting, achieving professional level spraying effects, suitable for various automotive surfaces.

Product advantages

Professional level spraying effect

Excellent leveling and atomization properties: Spray painting has excellent leveling and atomization properties, which can be perfectly matched with various spray guns to ensure uniform and smooth coating during the spraying process, reduce defects such as orange peel and sagging, and achieve professional level spraying effects.

High coverage power: With good coverage power, it can effectively cover substrate defects, reduce spraying frequency, improve construction efficiency, and reduce overall construction costs.

Wide applicability

Multi vehicle adaptation: Suitable for various types of cars, meeting the repair and beautification needs of different vehicle models.

Multiple construction methods: Supports spraying, brushing, and other construction methods to adapt to different construction environments and needs, providing flexible solutions.
