## Product Description

### Product Overview

Characteristics	Technical highlights	User Value
<b>Pure white tone</b>	Using high-purity white pigment, the color is pure and free of impurities, the visual effect is clean and refreshing, suitable for various car styles, whether it is a business sedan or a family SUV, it can be easily driven.	Keep the vehicle with a classic and simple appearance, enhance the overall temperament, suitable for car owners who pursue simplicity and purity.
<b>High glossiness (optional)</b>	Provide a high gloss version (gloss $\geq 90\%$ ), with a smooth and mirror-like paint film, uniform and delicate light reflection, greatly enhancing the luxurious texture and exquisite feeling of the car body; Matte versions are also available (optional) to meet different aesthetic needs.	The high gloss version makes the vehicle shine like a new car, while the matte version adds a low-key luxury feel, and users can freely choose according to their preferences.
<b>Original factory level quality assurance</b>	Strictly matching the original color code standards of automobile manufacturers, precise replication is carried out from hue, brightness to coating texture. After repair, it seamlessly blends with the original car paint surface without color difference or defects.	Whether it's repainting a new car or refurbishing an old one, it can achieve "seamless repair" and maintain the uniformity and high-end feel of the vehicle's appearance.
<b>Chemical corrosion resistance</b>	It has the characteristics of acid rain resistance, bird droppings resistance, tree sap resistance, etc., resisting the erosion of common corrosive substances, protecting the paint surface from damage, and extending the coating life.	Reduce paint problems caused by environmental factors, such as corrosion and discoloration, and maintain the integrity and aesthetics of the vehicle body.
<b>Factory direct supply advantage</b>	Source production ensures stable quality, eliminates intermediary links, provides more competitive prices and fast supply capabilities, and supports small batch customization (such as special white color adjustment).	Car owners/repair shops can obtain original factory quality at a better cost, shorten construction waiting time, and flexibly meet personalized needs.
<b>Flexible construction support</b>	Provide 0.5L-5L multi specification packaging, suitable for small area repairs or whole vehicle spraying; Support OEM/ODM customization (such as adjusting glossiness or special performance).	Meeting personalized needs and flexible bulk procurement, construction tools are compatible with spray guns/brushes, and easy to operate.

This hot selling pure white scratch resistant, wear-resistant, and UV resistant car paint is the star product of Meklon factory, designed specifically for car repair, refurbishment, and daily maintenance. It is based on a pure and flawless white color tone, combined with excellent scratch and wear resistance and long-lasting UV protection, perfectly adapting to the needs of all models from classic sedans to modern SUVs, providing a long-lasting and pristine white appearance and comprehensive protection. It is the first choice for car owners and repair shops who pursue high quality and durability.
