Product Description

Accurate color

It is strictly formulated according to the standard color card of Mercedes-Benz DB723. The color is highly restored, showing a deep, elegant and unique color, which perfectly matches the brand image of Mercedes-Benz.

It has extremely high color consistency. The color of each batch of products can remain stable, ensuring that there will be no color difference when the whole vehicle is sprayed or partially repaired, and a perfect painting effect is achieved.

Outstanding effect

The paint layer formed after spraying is smooth and delicate, with excellent glossiness, which can bring a mirror-like bright effect to the surface of the car, and enhance the appearance texture and grade of the car.

It has good leveling properties, can flow evenly during the spraying process, automatically fills in minor surface defects, makes the car surface smoother and smoother, and shows the ultimate craftsmanship beauty.

CarCharm Car Paint

Excellent quality

The use of high-quality raw materials and advanced production technology ensures that the paint layer has excellent adhesion and can be firmly attached to the surface of the car, effectively resisting scratches, wear and corrosion during daily driving, and providing long-term protection for the car.

It has good weather resistance and can maintain stable performance under various harsh environmental conditions such as high temperature, low temperature, humidity or ultraviolet radiation. It is not easy to fade, discolor or crack.
