Product Description

Premium and Budget-Friendly Non - Woven Fabric from Meklon: Opt for Thick or Ordinary Varieties

Product Overview

Meklon presents an outstanding range of non - woven fabrics that combine quality with cost - effectiveness, catering to diverse application needs. Whether you're in search of a more robust option or a standard one, Meklon has you covered.

Product Specifications and Pricing

Thickened Non - Woven Fabric

Size: Each piece of the thickened non - woven fabric measures 35CM * 35CM.

Packaging and Price: It is neatly packed in boxes. This thickened version offers enhanced durability and sturdiness, making it an ideal choice for applications that require extra strength and resilience. It can be used in areas where there is more wear and tear or where a thicker material is necessary for better performance, such as in some heavy - duty crafting or light - industrial projects.

Ordinary Non - Woven Fabric

Size: The ordinary non - woven fabric has dimensions of 35CM * 23CM.

Packaging and Price: Also available in box packaging. This option provides a more budget - friendly alternative while still maintaining good quality. It is suitable for a wide range of general - purpose applications, such as simple crafting, home decor projects, or basic packaging needs where the extra thickness is not a requirement.

Quality Assurance

[Meklon's non - woven fabrics](#) are manufactured using high - grade raw materials and advanced production techniques.

Despite the difference in thickness, both varieties ensure excellent uniformity, softness, and breathability. They are also resistant to fraying and have good tensile strength, ensuring long - lasting performance in various applications.

Versatile Applications

These non - woven fabrics from Meklon can be used in numerous ways. In the crafting world, they are perfect for making scrapbooks, gift wraps, and various DIY projects. In the home, they can serve as liners for shelves, drawer liners, or even as protective covers for furniture during painting or other home improvement tasks. In the light - industrial sector, they can be used for basic filtration, packaging of lightweight items, and more.

Choose Meklon's non - woven fabrics and enjoy the benefits of high quality and cost - effectiveness, with the flexibility to select between thick and ordinary options according to your specific needs.
