

SUTU Polishing Machine: An Efficient And High-Quality Polishing Tool For Automotive Repair Products

Our Product Introduction

for more products please visit us on refinishcarpaint.com

Basic Information

- Place of Origin: GUANGDONG CHINA
- Brand Name: Meklon
- Certification: ISO,SGS,MSDS
- Model Number: SUTU
- Minimum Order Quantity: 50 cartoon
- Price: USD20/L-25/L
- Packaging Details: 1L*12,4*4,20L,200L
- Delivery Time: 5-8 work days
- Payment Terms: T/T
- Supply Ability: 5000Piece/month

Product Specification

- Model: QAB
- Usage: Car Paint, Plastic Coating
- Special Features: Light
- Product Usage: Exterior Car Cleaning
- Fields Of Use: Car Repair/car Detailing
- Easy To Clean: Yes
- Manufacture: Meklon
- Advantage: High Performance-price Ratio
- Highlight: **SUTU automotive polishing machine, car paint polishing tool, high-quality refinish polisher**

Product Description

SUTU Polishing Machine: An Efficient And High-Quality Polishing Tool For Automotive Repair Products

1, Two models, diverse choices

We offer two models: Regular and Ultra. The Regular model provides you with basic polishing functions at an affordable price, suitable for some routine tasks that do not require particularly high polishing requirements, making it an ideal choice for entry-level users. The Ultra model is priced higher than the Regular, but it takes performance to the next level. It has stronger power and finer polishing effects, capable of handling various complex polishing scenarios, whether it is fine treatment of metal surfaces or smooth polishing of plastic materials, it can be easily controlled.

2, Excellent quality, durable and reliable

SUTU polishing machines use high-quality materials and exquisite manufacturing techniques. The body shell is sturdy and durable, capable of effectively resisting bumps and wear during daily use. The key components such as the internal motor have undergone strict quality testing, and their performance is stable and reliable. They can work continuously for a long time, reducing downtime caused by equipment failures and providing solid support for your work.

3, Easy to operate and user-friendly

The polishing machine is designed to be user-friendly and easy to operate. Even beginners who are new to polishing machines can quickly familiarize themselves with and master their usage methods. The handle equipped is ergonomically designed, comfortable to grip, and not prone to fatigue even after prolonged use. At the same time, the speed and other parameters of the device are easy to adjust, and you can easily adjust them to the appropriate settings according to different polishing materials and needs.

4, Efficient polishing, saving time

SUTU polishing machine has efficient polishing capability. Its unique polishing disc design and strong power output can complete large-area polishing work in a short period of time, greatly improving work efficiency. Compared to traditional manual polishing methods, it is not only faster, but also has a more uniform and smooth polishing effect, making your product shine with a brand new brilliance.

Choose SUTU polishing machine and embark on an efficient and high-quality polishing journey!

Customer feedback(Africa Clients)

As a loyal customer of the car repair shop, we have been cooperating with Meklon for over 3 years. Their car paint color matching is extremely high (especially OEM color codes), and there are almost no visible traces after repair; The quality of auxiliary materials is also very solid - the masking film has good leak resistance, and the spray gun sprays evenly, greatly improving our construction efficiency. Reasonable price and stable supply, timely after-sales response, making it a trustworthy long-term partner!
