Product Description

Factory Direct Sales Paper Funnel Car Paint Mixing Oil Funnel Anti-Corrosion

Through our small funnel - a compact and efficient tool designed specifically for car paint mixing and everyday convenience. This 100g funnel provides smooth and spill free distribution for liquids, powders, or small particles. Whether you are transferring car paint or other substances, its optimized shape ensures fast and accurate filling every time. The price per box is only around \$5, making it an affordable solution for businesses, DIY enthusiasts, and families. The combination of durable structure and user-friendly design makes it a must-have for any occasion that requires precise casting. Upgrade your workflow with our Small Funnel now!

Factory History and Achievements

Meklon Automotive Paint Manufacturing Factory was established in 2010. Starting from the initial small-scale production, after years of unremitting efforts and continuous development, it has gradually emerged in the automotive paint industry.

In the early days of its establishment, facing fierce market competition and many technical difficulties, we adhered to the persistent pursuit of quality and innovative spirit, and continued to explore and try. By introducing advanced production technology and equipment and cultivating professional technical personnel, we have gradually accumulated rich production experience and professional knowledge. We continue to increase investment in research and development and are committed to improving product quality and performance. After countless experiments and improvements, we have successfully launched a series of automotive paint products with independent intellectual property rights, covering a variety of colors and functions, meeting the diverse needs of different customers.

In the past few decades, our factory has achieved many remarkable achievements. Our automotive paint products have not only been widely recognized and praised in the domestic market, but also successfully exported to many countries and regions, winning the favor of the international market.

We have established long-term and stable cooperative relations with many well-known automobile manufacturers, providing them with high-quality automotive paint solutions. At the same time, we actively participate in the formulation of industry standards and promote the advancement of industry technology, making important contributions to the development of the entire automotive paint industry.

Looking back on the past, we are deeply proud; looking forward to the future, we are full of confidence. We will continue to uphold the business philosophy of "quality first, innovation driven, customer first", constantly improve our own strength, provide customers with better products and services, and create more brilliance for the development of the automotive paint industry!
