

## Multi Purpose Automotive Repair Products G4 Automotive Wax Oil Moisture-Proof And Anti-Corrosion

### Our Product Introduction

for more products please visit us on [refinishcarpaint.com](http://refinishcarpaint.com)

#### Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Model Number: G4
- Minimum Order Quantity: 200Boxes
- Price: 14.31USD-16.16USD
- Packaging Details: Can/Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500 boxes per day

#### Product Specification

- Uv Resistance: Yes
- Recommended Use: Interior/Exterior
- Color: Clear
- Easy To Clean: Yes
- Function: Strong
- Type: Automotive Paint Repair
- Storage: Store In A Cool, Dry Place
- Finish: Glossy

## Product Description

### G4 advanced formula for automotive wax oil, providing excellent protection

**Decontamination and cleaning:** It can effectively remove dirt, dust, oil stains, and other attachments on the surface of the vehicle, restoring the vehicle to a clean and tidy state. For example, G4 wax can easily dissolve and wipe off road oil, tree sap, and other substances that may accumulate on the vehicle during daily driving.

**Scratch repair:** has a certain ability to repair small scratches. By filling and polishing, scratches become less noticeable, improving the flatness and smoothness of the car's paint surface. For example, the hair like scratches caused by daily minor friction on the car body can be better repaired by using G4 car beauty wax.

**Polishing and Brightening:** It can form a bright protective film on the surface of the car paint, increase the glossiness of the car paint, make the vehicle look more brand new and bright, improve the overall beauty of the vehicle, and make the body appear mirror like.

**Antioxidant protection:** It can isolate the erosion of air, moisture, and ultraviolet rays on car paint, prevent paint oxidation, fading, and aging, extend the service life of car paint, and provide long-lasting protection for car paint.

### Product Features

**Four in one effect:** integrating multiple functions such as stain removal, scratch repair, polishing, anti-oxidation, etc., reducing the trouble for car owners to use various car beauty products. Convenient and efficient, saving time and effort.

**Liquid texture:** Compared with solid wax, liquid G4 wax oil is easier to apply evenly, can better penetrate into the tiny gaps of car paint, exert its various functions, and is easier to operate. It is also less prone to uneven application or residual wax stains.

**Wide applicability:** It can be applied to various colors and materials of automotive paint, including metallic paint, pearl paint, ordinary paint, etc., and can also be used for polishing materials such as carbon fiber and glass fiber.

### How to use?

**Preparation:** First, thoroughly clean the vehicle body to remove impurities such as mud and dust on the surface, ensuring that the vehicle body is dry. Prepare a clean wax sponge or wax cloth.

**Apply wax oil:** Pour an appropriate amount of G4 car beauty wax oil onto a waxing sponge or wax cloth, and evenly apply it to the car body in small circular motions. Apply small areas each time, such as roofs, engine hoods, doors, etc. Avoid applying too much at once, which can cause uneven wax coating.

**Drying treatment:** Let the wax oil dry naturally in a cool and ventilated place, avoiding direct sunlight, otherwise it may cause the wax layer to dry too quickly, affecting the effect.

**Wiping and Polishing:** After the wax layer dries, gently wipe it with a clean and soft towel to remove excess wax and create a smooth and bright effect on the surface of the car body.
