#### Factory History and Achievements

Guangzhou Meklon Automotive Paint Manufacturing Factory was established in 2014. Starting from small-scale production, after years of deep cultivation and breakthroughs, it has now become a leading enterprise in the industry. In the early stages of entrepreneurship, facing fierce competition and technological challenges, we adhere to the principle of **"quality first, innovation driven"**, continuously introduce advanced process equipment, cultivate professional teams, and accumulate profound production experience; Through continuous high investment in research and development and numerous experimental improvements, we have successfully launched a series of automotive paints with independent intellectual property rights, covering multiple color schemes and functions, and accurately matching different customer needs.

Up to now, our products have not only been popular domestically and highly recognized, but also exported to many countries and regions around the world, winning the favor of the international market. We have established long-term stable cooperation with multiple well-known car companies, providing high-end coating solutions, actively participating in industry standard setting, promoting technological progress, and contributing to the development of the industry.

Based on the current situation, Meklon will continue to uphold the concept of "quality first, innovation driven, customer first", improve its strength, and work together with global customers to explore new brilliance in the automotive paint industry!
