Product Description

Meklon OEM Customized Full Chain Service - Worry Free From Demand To Delivery

Packaging Customization

Tank design: Supports logo printing, brand name/slogan labeling, color/pattern customization (provide design drafts or assist with our design team).

Specification adaptation: Adjust packaging capacity as needed (regular 1L/4L/20L, special specifications can be developed) to match wholesale channel sales preferences (such as retail small packaging or engineering large packaging).

Product Customization

Color paint customization: With over 150000 formula databases and spectrometer color matching systems, we can accurately match customer specified color codes (such as factory colors, popular colors), special effects (metallic paint/matte paint/pearl paint), or develop exclusive color schemes based on your market research needs.

Functional adaptation: Adjust performance parameters such as weather resistance and wear resistance for different market climates (such as high temperature and humidity in Africa and heavy rainfall in Southeast Asia) to ensure excellent performance of the paint film in the local environment.

Service Support

Brand Empowerment: Provide brand marketing recommendations (such as color scheme matching, product selling point extraction), and multilingual label design in French/English (suitable for markets such as Africa/Southeast Asia).

Supply chain guarantee: Direct supply from manufacturers ensures stable production capacity, regular customized products support quick delivery of spot goods, urgent orders are prioritized for production (48 hour response), and the larger the wholesale volume, the better the price.
