Product Description

High Gloss And Weather Resistant Acrylic Car Paint Suitable For Wholesale

Exclusive policy for Meklon dealers - dual empowerment of price discounts and customized services

As a leading manufacturer of automotive paint, Meklon offers a combination of "bottom price direct supply+tiered discounts+deep customization" policies to global dealers. With cost-effective products and flexible service systems, Meklon helps you quickly expand your market and increase your profit margins!

Price discount: Direct supply from the manufacturer, affordable to the end

- Direct cost reduction, bottom price supply
- Meklon abandons the intermediary trading process and ships all products directly from its own modern factory, ensuring that you receive the lowest ex factory price in the market of the same quality (15% -20% lower than similar imported brands and 10%+lower than domestic distributors of the same level).
- Ladder discount, win-win situation of quantity and profit
- Basic threshold: Single purchase of 50L minimum order (suitable for new customers to try), enjoy a 47% discount;

Customized service: precise matching, creating exclusive advantages

Packaging customization

- Support paint can LOGO printing, brand name/slogan labeling, and multilingual labels (English/French/Spanish, etc.) to meet the language needs of your regional market;
- Adjustable packaging specifications (regular 1L/4L/20L, special capacity can be developed) to match your channel sales preferences (such as retail small packaging or engineering large packaging).

Product customization

- Color paint customization: relying on a formula database of over 150000 and a spectrometer color matching system, accurately matching popular color codes in the target market (such as classic European and American colors, original colors of local car models), or developing niche special effect paints (metal paint/matte paint/pearl paint);
- Function customization: Adjust weather resistance, wear resistance and other parameters according to local climate (such as high temperature in Africa and high humidity in Southeast Asia), or develop environmentally friendly water-based paint and scratch resistant special paint to meet differentiated needs.
