

Factory Direct Sales Of Automotive Paint With Color System

Our Product Introduction

for more products please visit us on refinishcarpaint.com

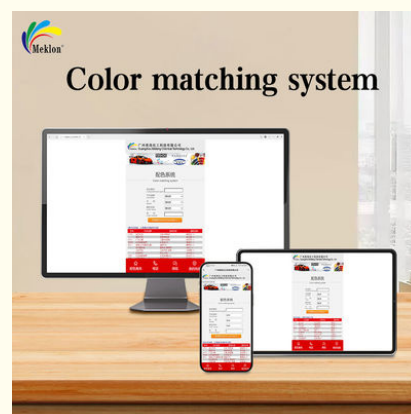

Basic Information

- Place of Origin: CHINA
- Brand Name: Meklon
- Certification: MSDS,SGS,ISO
- Minimum Order Quantity: 100Boxes
- Price: 2.45 ~ 6.6 USD
- Packaging Details: Can/Carton
- Delivery Time: 7-15work day
- Payment Terms: T/T
- Supply Ability: 1000Boxes/day

Product Specification

- Quality: Good
- Uv Resistance: Yes
- Easy To Clean: Yes
- Surface: Metal, Wood, Masonry, And More
- Gloss Retention: High
- Applicationhumidity: Less Than 85%
- Application Method: Spray
- Indooroutdoor: Indoor/Outdoor
- Surface Preparation: Sanding And Priming
- Working: Agitator
- Surface Compatibility: Metal, Plastic, And Fiberglass
- Color System: Yes

Factory Direct Sales Of Automotive Paint With Color System

In the field of automotive paint, precise color reproduction is one of the core needs of customers. With over 150000 formula databases, international standard color card systems, and customized service capabilities, Meklon provides global customers with "precise, efficient, and flexible" color system solutions, helping dealers, auto repair shops, and end customers easily achieve "what you see is what you get" coating effects.

Massive formula library covering global vehicle models

Meklon has over 150000 precise formula data, covering the original factory color codes (OEM codes) of mainstream global car brands (such as Toyota, Volkswagen, Ford, BMW, etc.) and models, including classic colors, limited edition colors, and discontinued model replicas. Whether it is European and American deep black, Japanese and Korean macaron color, or Chinese characteristic car paint, it can be quickly matched, with color difference controlled within $\Delta E \leq 0.5$ (industry-leading precision), ensuring "zero color difference" between the repaired and original car paint surface.

International standard color card, intuitive color selection

Provide multi system standard color cards (such as Pantone, RAL, CMYK, and automotive industry specific color cards), supporting customers to quickly locate target colors through color card numbers; At the same time, the color cards are labeled with corresponding formula codes, making it convenient for technicians to directly call and improve color mixing efficiency.

Customized services to meet special needs

For niche car models, modified cars, or personalized customer needs (such as race painting, enterprise customized colors), the Meklon technical team can develop exclusive customized color codes through precise color measurement by spectrometers and manual calibration, and provide exclusive formula documents to ensure color uniqueness and reproducibility.

Why choose Meklon color system?

Accurate and reliable: With a formula library of over 150000 and international standard color cards, the color difference is extremely small, and the repaired paint surface will naturally look like the original factory;

Efficient and convenient: color card number direct search+fast matching service, shortening color matching time and improving work efficiency;

Flexible customization: meet the needs of niche colors and special scenarios, and assist customers in differentiated competition:

Full support: From color selection to construction, our technical team provides full support to ensure color effects and customer satisfaction.
