Product Description

Manufacturer's Best-selling Non Shedding Car Care Product Non-woven Fabric

Manufacturer direct supply | Non shedding non-woven fabric for car care, guaranteed quality at the source

Core Advantages

With 15 years of focus on the production of automotive care non-woven fabrics, produced in a 100000 level dust-free workshop, and featuring three major characteristics of **"zero shedding, strong cleaning, and durability"**, we have gained long-term trust from auto repair shops/4S stores/car owners!

Technical Support

Our own technical team strictly controls:

Raw materials: high-density ultrafine fibers+composite polyester substrate (fiber fineness of ordinary 1/3)

Process: Hot pressing reinforcement+edge locking technology (industry exclusive anti shedding)

Quality inspection: Double testing with tensile strength $\geq 5N$ and shedding rate $\leq 0.1\%$

Three core functions

Zero hair removal: high-density weaving+edge sealing, repeated wiping/wetting without shedding fluff, no residue on paint/interior

Strong cleaning: Micro brushed surface enhances friction and easily removes gum/bird droppings/oil film/dust

Ultra durable: thickened substrate+fiber reinforcement, can be reused 10-15 times under normal use (saving 30%+cost)

Manufacturer direct sales benefits

Wholesale discount: Starting from 100 boxes, more quantities can be customized with logos

After sales guarantee: unconditional return and exchange for quality issues

Customization service: color/size/packaging customized as needed

Direct delivery in stock! Auto repair shop/4S store/personal car owner preferred, consult customer service to enjoy sample testing!
