

High Cost-effective Customizable Size Car Masking Tape And Car Care Products

Our Product Introduction

for more products please visit us on refinishcarpaint.com

Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Minimum Order Quantity: 100Boxes
- Price: 2.45 ~ 6.92 USD/Can
- Packaging Details: Can/Carton
- Delivery Time: 7-15 work day
- Payment Terms: T/T
- Supply Ability: 1000Boxes/day

Product Specification

- Suitable For: Cars, Trucks, Motorcycles
- Durability: Long-lasting
- Form: Liquid
- Product Usage: Exterior Car Cleaning
- Surface Type: Metal
- Mixer Type: Static Mixers
- Material: Acrylic
- Filterability: Excellent
- Recoat: 2 Hours
- Productname: Vehicle Car Paint
- Gloss Retention: High

Product Description

Meklon car masking tape - directly supplied by the manufacturer, professional quality

Meklon, as a professional manufacturer of automotive masking tape, directly supplies high viscosity, precise masking, durable and easy to tear automotive masking tape products to global customers from the source factory, eliminating intermediate links and providing better quality at a better price, meeting the demanding needs of automotive painting, maintenance, modification and other scenarios.

Core advantage: Direct supply from the manufacturer, controllable quality

Source production, better price

Manufacturer direct sales, no middleman markup: Meklon is a professional manufacturer of automotive masking tape, with independent control over the entire process from substrate production to cutting and packaging. It directly supplies global customers at factory prices, making prices more competitive for the same quality and reducing procurement costs.

Flexible customization, fast response: supports small batch trial orders and large batch customization (such as special width, viscosity level, color printing), can adjust parameters according to customer needs, fast order response, and short supply cycle.

Professional quality, stable performance

Accurate masking, no residue or damage to paint: Using high-precision coating technology, the adhesive layer is uniform and delicate, with moderate viscosity (able to firmly adhere to edges/gaps, and easily peel off without residue), perfectly protecting surfaces such as car paint, glass, plastic, etc., avoiding spray paint splashing or scratching damage.

Strong adaptability, durable and stretch resistant: selected high-quality substrates (such as PET, PVC, etc.), good flexibility, tear resistance, high temperature resistance (suitable for baking paint process), solvent resistance (resistant to paint corrosion), suitable for various scenarios such as car painting, sheet metal repair, modification film, etc.

Exquisite craftsmanship, easy operation: smooth edges without burrs, complete width specifications (such as 18mm/24mm/36mm, etc.), tight fit without curling edges, easy to tear and stick during construction, improving work efficiency.

Manufacturer service, worry free after-sales service

Full process technical support: Meklon has an experienced production&technical team that can provide one-stop services such as sample testing, adhesive matching, and packaging customization (such as brand printing/roll/box packaging) to ensure that products are suitable for customer needs.

Stable supply, global delivery: factories are directly connected to customers, regular models are quickly shipped in stock, customized orders are quickly sampled and mass-produced, and efficient logistics networks are used to ensure the stability of the global supply chain.

Why choose Meklon car masking tape?

- We are manufacturers, not traders → Lower prices, more stable quality, and more flexible customization
- Full process independent production → strict control at every step from substrate to finished product
- Global automotive aftermarket validation → adaptation to multi scenario needs such as painting, modification, and maintenance

Suitable for

- car 4S stores, repair shops, modification studios, DIY spray painting enthusiasts, etc.
