

Automotive Paint Source Factory Wear-resistant Acrylic Automotive Paint

Our Product Introduction

for more products please visit us on refinishcarpaint.com

Basic Information

- Place of Origin: China
- Brand Name: Meklo
- Certification: ISO,MSDS,SGS
- Minimum Order Quantity: 100Boxes
- Price: 2.45~6.92USD
- Packaging Details: Can/Carton
- Delivery Time: 7~15 work day
- Payment Terms: T/T
- Supply Ability: 1000Boxes/day

Product Specification

- Port: Nansha
- Odor: Low
- Color Scheme Positioning: Modern Sense Of Technology
- Manufacturer Services: Technical Support/Customizable/OEM/ODM
- Net Weight: 0.95KG
- Main Raw Materials: Resine, Solvent, Pigment, LPG
- Curing Time: 24 Hours
- Fields Of Use: Car Repair/car Detailing
- Scratch Resistance: High
- Uv Protection: Yes

Product Description

Automotive Paint Source Factory Wear-resistant Acrylic Automotive Paint

Meklon series products and core advantages

1, Core Product Matrix

1. Automotive paint beauty series:

covering full process tools and consumables such as grinding/polishing machines, G3/G4 wax oil, atomic ash, funnel paper, non-woven fabrics, etc. From substrate treatment (such as efficient removal of old paint/scratches by grinding machines), intermediate coating transition (such as filling dents with atomic ash), to paint surface brightening (such as providing long-lasting protection with wax oil and optimizing polishing effect with non-woven fabric), it meets the full scene needs of vehicle paint surface refurbishment to detail maintenance.

2. Automotive masking and protection series:

including high viscosity masking film, precision cutting masking paper, multi specification masking tape, etc., suitable for edge protection of paint surface and protection of complex components (such as wheels/glass/plastic parts) during vehicle painting, effectively blocking paint mist splashes and ensuring clean and undamaged non spraying areas.

2, Differentiation advantage

1. Direct supply from the source, controllable quality:

Meklon is produced by its own factory, with strict quality inspection throughout the entire process from raw material screening (such as high-density wax oil substrate, tear resistant masking film substrate) to finished product delivery, ensuring stable performance of each product (such as high gloss and durability of wax oil, high temperature and solvent resistance of masking film).

2. Flexible customization and global adaptability:

supports small batch trial orders and bulk customization (such as adjusting wax oil viscosity, masking film size/viscosity), can customize packaging according to customer needs (such as brand logo printing), adapt to different vehicle models (such as passenger/commercial vehicle consumables), and meet diverse market demands.

3. Professional and reliable, cost-effective:

The product has passed international standard testing (such as environmental protection, non toxicity, and corrosion resistance), and combines durability (such as the masking film not coming off after multiple uses) with high cost-effectiveness (factory direct supply eliminates the need for intermediaries to pay a premium), helping customers reduce overall costs.

Summary: Meklon is based on "factory strength+full chain quality control" and provides one-stop professional solutions from construction tools to protective materials for global automotive beauty salons, repair shops, and modification customers through a full range of coverage, flexible customization, and cost-effective product combinations.

WHY CHOOSE US!

CHINA Quality Car Paint Supplier

 20,000m² Factory Area	 50,000T Annual Production Capacity	 200+ Partners Worldwide
 10+ Years Experience	 100+ Employees	 10+ Years Experience
