

2K Automotive Paint - Vehicle And Custom Colors - Can Body And Container

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Minimum Order Quantity: 100Boxes
- Price: 2.45~6.92USD
- Packaging Details: Can/Carton
- Delivery Time: 7~15work days
- Payment Terms: T/T
- Supply Ability: 1000Boxes/day

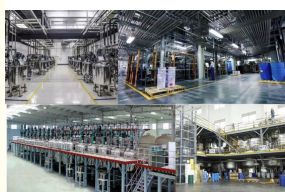

Product Specification

- Usage: Professional And DIY
- Chemical Resistance: Yes
- Function: Cleaning
- Net Weigh: 0.95KG
- Nature: Wholesale/Customization Available
- Coating: Acrylic
- Colors: Gold
- Application: Spray
- Indoor/outdoor: Indoor/Outdoor
- Heat Resistance: Yes
- Coats: 2-3
- Series: CarCharm Series
- Water Resistant: Yes
- Highlight: **2K automotive paint cans, custom car paint colors,**

Product Description

2K Automotive Paint - Meklon Professional Customization Services and High Quality Canned Solutions

Product core

Meklon 2K automotive paint adopts a two-component chemical reaction curing system. After mixing the main agent (resin/pigment) and curing agent in a scientific ratio, a high hardness, high gloss, and strong weather resistant paint film is formed through cross-linking reaction. It is specially designed for vehicle original paint repair, personalized customization (such as modified cars, exhibition cars, classic car replicas) and other scenarios, with excellent color reproduction and durability.

Service Highlights

Accurate color customization: relying on professional color matching systems and a large color library, supporting the reproduction of original vehicle color codes and personalized customization needs (such as special gradients and dazzling effects), ensuring that each batch of paint colors matches customer needs accurately;

Full chain adaptation: providing full process technical support from color and paint blending, curing agent ratio guidance to spraying process parameters (such as spray gun pressure, interlayer drying time), helping customers efficiently achieve ideal coating effects;

Flexible packaging service: providing diversified can body and container options for different application scenarios, including standard industrial cans such as 1L/2L/4L/20L, as well as customized small capacity sample cans and special shape packaging (such as portable spray cans suitable for fitting), to meet the diverse needs of repair shops for batch painting, flexible allocation by modification studios, and DIY by end users; The can body is clearly labeled (color code, ratio description, shelf life) for easy management and traceability.

Quality assurance: Meklon 2K paint has passed strict weather resistance testing (UV resistance, acid rain resistance) and mechanical performance verification (scratch resistance, high hardness), ensuring that the paint film remains bright and smooth for a long time, while also considering both aesthetics and protective functions. It is a reliable choice for upgrading and customizing vehicle paint surfaces.
