

3M Polished Automotive High Gloss Grinding Frosted Paper

Basic Information

- Place of Origin: China
- Brand Name: 3M
- Certification: ISO,MSDS,ISO
- Minimum Order Quantity: 100Boxes
- Price: 2.45~6.92USD
- Packaging Details: Boxes/Carton
- Delivery Time: 7~15 work days
- Payment Terms: T/T
- Supply Ability: 1000Boxes

Product Specification

- Fields Of Use: Car Repair/car Detailing
- Finish: Glossy
- Type: Sandpaper
- Feature: High Grinding Efficiency And Low Chip Adhesion, Etc
- Highlight: 3M automotive grinding paper, high gloss frosted sandpaper, polished car paint refinishing paper

Product Description

3M Polished Automotive High Gloss Grinding Frosted Paper

Product positioning: A professional polishing tool designed specifically for wood, paint, metal, plastic, and coating surfaces, suitable for removing defects and preparing old coatings for new coatings. It is particularly skilled in handling complex areas such as headlight openings, door handle edges, and door panel edges that are difficult to reach.

Core Advantages

Precise adaptation to difficult to reach areas: Flexible sponge penetrates into narrow gaps (such as lamp holes and door handles), easily handling edges and concealed positions, reducing the difficulty of traditional tool operation.

Multi material compatibility: Suitable for wood, paint, metal, plastic, and various coatings to meet the polishing needs of multiple substrates.

Dry wet dual mode: supports dry grinding (efficient) and wet grinding (dust reduction), suitable for different working environments.

Fine particle control: Multi grade alumina abrasive (including ultrafine), accurately matching from scratch repair to deep defect treatment.

Low wear risk: Designed with low to medium pressure and flexible support to reduce edge wear and protect substrate integrity.

Technical Parameters

Support Material	High elastic foam
Size specifications	140mm × 115mm (standard version, special sizes can be customized)
Abrasive Type	Alumina (A)
Grinding Grade	Medium, fine, ultra-fine, fine (including ultra-fine option)
Applicable Process	Wet grinding/dry grinding
Pressure Range	Medium/low (suitable for fine operation)
Application Method	Manual polishing

Service support

Standard size in stock supply, special size/particle requirements can be customized according to customer requirements.
