Product Description

3M Mask Chemical Spray Paint Anti Oil Smoke And Dust Wholesale Sales

The advantages/features of the M 7502 gas mask are as follows:

Wearing experience and comfort

Advanced silicone material: Soft and comfortable to the face, suitable for users to wear for a long time.

Adjustable headband/headband: The adjustable headband provides a more comfortable wearing experience; Polyester/spandex woven headband for longer lasting elasticity; The headband has standard mode and suspension mode, and can be used in conjunction with a safety helmet in suspension mode for easy removal.

Material properties

One time compression molding: longer service life; Good oil resistance and not easily aged.

Convenience of assembly

Snap on assembly design: The installation and disassembly of the filter cartridge and filter cotton are convenient and fast.

Breathing design advantages

Unique downward design of exhalation port: It discharges moist and hot exhalation downwards without affecting the line of sight; The exhalation valve plate is less prone to contamination and easier to clean.

3M patented cold flow exhalation valve: The exhalation valve has a large opening range, making exhalation smoother; Reduce the accumulation of heat and moisture inside the mask, resulting in fresher air.

Application and adaptability

The product has a wide range of applications: strong applicability; There are multiple NIOSH certified filter cartridges or filter cotton to choose from, which can be used to protect against various gases, vapors, and particulate matter, with a wide range of applications.

Accessories and Certification

Abundant spare parts: There are multiple parts to choose from, making replacement more economical; Strong maintainability.

The product has obtained certifications from multiple countries: LA certification in China and NIOSH certification in the United States.
