

Automotive Paint Masking Film Supplier For Dust And Dirt Prevention Without Leaving Glue

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Meklon
- Certification: ISO,SGS,MSDS
- Minimum Order Quantity: 100Boxes
- Price: 0.15-0.92USD
- Packaging Details: Rolls/Carton
- Delivery Time: 7-15 work days
- Payment Terms: T/T
- Supply Ability: 1000Boxes/day

Product Specification

- Manufacturer Services: Technical Support/Customizable/OEM/ODM
- Storage Requirements: Cool, Dry Place
- Easy To Clean: Yes
- Water Resistance: Yes
- Manufacture: Meklon
- Highlight: automotive paint masking film,
dust prevention paint film,
car refinsh masking film

Product Description

Automotive Paint Masking Film Supplier For Dust And Dirt Prevention Without Leaving Glue

Core advantage: Manufacturing origin, craftsmanship quality

Directly supplied by the source manufacturer, equipped with precision coating lines and strict quality control in our own modern factory, we independently control the substrate/adhesive layer formula throughout the entire process to ensure that each roll of masking film is "free of residue, strong anti fouling, and easy to peel off". We refuse OEM production and ensure more reliable quality.

Product highlights: Precise protection, worry free construction

Precise anti fouling: closely adheres to the body of the car, blocks spray splashes, and protects the unpainted area of the paint surface from being clean;

No adhesive residue: environmentally friendly low adhesive layer, leaving no marks after tearing and not damaging the car paint/plastic parts;

Strong adaptability: Flexible material fits complex surfaces, resistant to high and low temperature environments without curling edges;

Efficient construction: Various specifications (customizable), quick operation by a single person, improving painting efficiency.

Why choose Meklon manufacturer?

Full chain independent production: the entire process from extrusion of base film, coating of adhesive layer to slitting and packaging is fully controlled, and the quality stability far exceeds that of OEM factories;

Continuous technological iteration: Our self-developed team has overcome the challenges of residual adhesive control and adhesion, and our performance is benchmarked against international standards;

Global practical verification: exported to multiple countries, long-term use by 4S stores/repair shops/DIY users, high repurchase rate;

Flexible customization service: supports small batch sample and special size/adhesive customization, adapted to meet the needs of multiple scenarios.

Summary: Meklon car spray paint masking film takes "manufacturing source+residue free technology" as its core, providing "strong anti fouling, non damaging paint, and easy operation" protection for professional spray painting operations, making every spray clean and neat!
