Core advantages of Meklon factory

1. Source intelligent manufacturing, full chain independent and controllable

Meklon has been rooted in the field of automotive coatings for 20 years, headquartered in Guangzhou, with its own 3000 square meter modern factory covering the entire process of "raw material screening → formula research and development → production modulation → quality inspection", controlling every link from the source to ensure stable and reliable product quality, and refusing to rely on OEM.

2. Cutting edge equipment for efficient and precise production

Equipped with international standard automated production lines and precision coating/mixing equipment, combined with digital process control systems, to achieve high-precision proportioning and stable output of products such as paint, varnish, and putty.

3. R&D driven, innovation driven demand

We have our own professional R&D team (15 years of experience in automotive paint formulation), continuously optimizing formulas such as "high coverage primer, long-lasting weather resistant varnish, environmentally friendly water-based paint", and synchronously developing differentiated products such as metal/pearl/special effect colors. We launch over 50 new color codes annually to meet personalized market needs.

4. Global supply, stable delivery guarantee

Annual production capacity exceeds 100000 tons, supporting rapid scheduling of large orders; Intelligent management of warehousing system, quick delivery of regular models in stock, priority allocation of emergency orders, coupled with a national logistics network, to ensure timely receipt of goods by global customers.

Summary: Meklon factory takes "full chain autonomy+technology empowerment+strict quality control" as its core, providing global customers with cost-effective and highly reliable automotive coating solutions. It is a trusted source partner for wholesalers, enterprises, and end users!
