Product Description

Efficient And Durable Car Paint Spray Gun Fine And Can Be Purchased Wholesale

Efficient and durable fine spray gun for automotive paint - a professional solution that supports wholesale procurement

Product positioning

This product is a professional level fine spray gun for automotive paint, designed specifically for automotive repair shops, sheet metal spraying centers, painting workshops, and large fleets. It adopts efficient atomization technology and durable structure, suitable for high-precision and high-efficiency automotive paint repair and vehicle spraying operations, and supports bulk procurement to meet the needs of large-scale production.

Core strengths

Efficient and precise atomization

- Adopting HVLP (High Flow Low Pressure) technology, the painting rate can reach over 65%, reducing paint waste
- Equipped with a 0.8mm-2.5mm multi caliber nozzle set, accurately matching different coatings such as primer, color paint, and varnish
- Uniform and delicate atomization, excellent paint leveling, effectively avoiding orange peel and sagging phenomenon

Wholesale procurement advantages

- Factory direct supply, priced 25% -40% lower than the retail market
- Provide standard kits (spray gun+multi caliber nozzle+tool kit) and customized kits
- Flexible minimum order quantity, supports mixed batch (can be purchased together with coatings and accessories)

Service Commitment

- Quality assurance: All products pass continuous testing for 72 hours before leaving the factory
- Technical support: Provide online troubleshooting and construction parameter guidance

By choosing our spray gun, you will receive:

- Construction quality improvement: Fine atomization brings professional grade paint surface effect
- Long term cost reduction: high durability reduces replacement frequency and maintenance costs
- Optimization of Procurement Efficiency: Wholesale Direct Supply Achieving High Cost Effective Equipment Investment

Welcome to request product manuals, technical information, and wholesale price lists. We can recommend the most suitable models based on your specific construction scenario.
