

## Pure Blue Acrylic Paint Automotive Car Refinish Coating & Car Paint

Our Product Introduction

for more products please visit us on [refinishcarpaint.com](http://refinishcarpaint.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: Car Charm
- Certification: ISO,MSDS,SGS
- Model Number: 110
- Minimum Order Quantity: 50L
- Price: 3USD/L-5USD/L
- Packaging Details: Carton, Iron canister
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500 boxes -1000 boxes per day

### Product Specification

- Gloss Retention: High
- Main Raw Materials: Resine, Solvent, Pigment, LPG
- Manufacturer: Meklon
- Material: Acrylic
- Type: Automotive Paint
- Formula: Mekloncolormix
- Scratch Resistant: Yes
- Surface: Metal
- Water Resistance: Yes
- Package: Can/carton
- Scratch Resistance: Provides Protection Against Scratches
- Application: Various Applications
- Wholesale: Yes
- Product Usage: Exterior Car Cleaning
- Highlight: **blue acrylic car paint,**

## Product Description

### Pure Blue Acrylic Paint Automotive Car Refinish Coating & Car Paint

Premium Acrylic Pure Blue Car Refinish Paint. Boasts crystal pure blue tone with high gloss finish, great weather UV and chemical resistance, strong adhesion and scratch resistance. Good leveling, fast drying and high hiding power for auto repair and full renovation. Low VOC, eco-friendly and meets international standards.

- Premium acrylic base: Excellent weather, UV and chemical resistance, strong adhesion, no fading or cracking.
- Pure Blue finish: Crystal clear pure blue tone, high gloss mirror effect, pure color saturation, stylish and elegant visual texture.
- Super durable paint film: Scratch and wear resistant, maintains long-lasting bright, smooth and fresh appearance.
- Easy spraying: Excellent leveling, fast drying, high hiding power, perfect for partial repair and full car repaint.
- Low VOC eco-friendly: Complies with international environmental regulations, safe for professional automotive construction.

### Product Specifications

Paint Film Property	Scratch-resistant
HS Code	320820
Level	High
Certification	ISO4001, ISO9001, ISO16949
Substrate	Acrylic
Components	Pigment
Formation Mechanism	Non Conversion Type
Transport Package	Carton Box
Shelf life	3-5years
MOQ	50L
Carton Specification	45*33.5*13.8
Delivery	By sea

### Key Performance Features

#### Excellent Adhesion

Ensures corrosion-resistant, long-lasting finishes on car surfaces while minimizing rework in collision repair applications.

## Strong Covering Power

High-performance automotive paint with primer-ready formula achieves flawless adhesion and durability on pre-treated metal surfaces using compatible epoxy primers.

## High Chroma Color

Ultra-high chroma automotive paint with Pantone®-validated color intensity delivers vibrant, fade-resistant finishes for custom cars and luxury restorations (ISO 105-A05 xenon test certified).

## Manufacturer Advantages

### Guangzhou Meklon Chemical Technology Co., Ltd

Guangzhou MEKLON Chemical Technology Co., Ltd. is a leading automotive chemical manufacturer specializing in paints, primers, and additives. With over 15 years of experience, it operates a 60,000 m<sup>2</sup> facility, adhering to ISO9001 and ISO14001 standards. The company provides high-quality, low VOC products and supports distributors with color formula software, mixing machines, and training.

**Expert Engineering:** Our R&D team has developed unique advantages for red and green pearls including strong sparkle, high gloss, quality construction, and high temperature resistance

**Global Reach:** Sales network covers more more than 65 countries with over 1,500 customers in China

**Industry Partnerships:** Established relationships with well-known automobile manufacturers, shipbuilding, and machinery manufacturers

**Professional Support:** Comprehensive technical support and timely after-sales service from order placement through completion

**Custom Solutions:** Customized options available for special colors and effects to meet individual customer requirements

## The multi-dimensional manifestation of technical professionalism

- 2. Resin and Curing System:** The technical team of the company has a profound understanding of the cross-linking reaction mechanism of acrylic resin and isocyanate curing agent. They can precisely control the drying speed of the paint film, as well as the balance between final hardness and flexibility. According to different climate regions, they have developed special formulations that are suitable for high humidity and heat, cold regions, and strong ultraviolet environments.
- 3. Color Development Capability:** Leveraging a rich color master system and a professional color matching database, the company is able to quickly match the original factory colors of various vehicle models, meeting the strict color accuracy requirements of the repair market.
- 4. Safety and Compliance Assurance:** All products are accurately classified in accordance with the United Nations GHS system and Chinese national standards (GB 30000 series). They come with complete safety data sheets (SDS) and compliant labels that meet the requirements of GB/T 16483 and GB 15258. During the transportation process, strict compliance with international dangerous goods regulations such as UN1263 (Class 3 Flammable Liquids) is followed. Each batch of exported products is entrusted to an authoritative institution to obtain the "Cargo Transportation Condition Appraisal Certificate" to ensure full chain safety and compliance from production to delivery.

## FAQ

---

### **Q: Poor Hiding Power, Easy to Show Undercoat, Patchy Color**

**A:**

**Causes:**

- Pure Blue itself has weak hiding power.
- The undercoat base color is too light.
- Spraying too thin in one time and uneven overlapping during spraying.

**Solutions:**

- Use grey intermediate coat as base, do not use white base.
- Spray 2-3 thin layers with even overlap for each coat.
- Adjust paint viscosity properly, do not over-dilute.
