## The multi-dimensional manifestation of technical professionalism

- 1. Resin and Curing System:** The technical team of the company has a profound understanding of the cross-linking reaction mechanism of acrylic resin and isocyanate curing agent. They can precisely control the drying speed of the paint film, as well as the balance between final hardness and flexibility. According to different climate regions, they have developed special formulations that are suitable for high humidity and heat, cold regions, and strong ultraviolet environments.
- 2. Color Development Capability:** Leveraging a rich color master system and a professional color matching database, the company is able to quickly match the original factory colors of various vehicle models, meeting the strict color accuracy requirements of the repair market.
- 3. Safety and Compliance Assurance:** All products are accurately classified in accordance with the United Nations GHS system and Chinese national standards (GB 30000 series). They come with complete safety data sheets (SDS) and compliant labels that meet the requirements of GB/T 16483 and GB 15258. During the transportation process, strict compliance with international dangerous goods regulations such as UN1263 (Class 3 Flammable Liquids) is followed. Each batch of exported products is entrusted to an authoritative institution to obtain the "Cargo Transportation Condition Appraisal Certificate" to ensure full chain safety and compliance from production to delivery.

## FAQ

### Q: Do you support large-scale industrial or wholesale distribution?

**A:** Yes, we are a high-capacity factory specializing in **bulk wholesale**. We have the production capability to handle container-level exports and provide specialized pricing tiers for large-scale distributors and industrial repair centers.

### Q: How do you ensure the glitter in "Glitter Blue Silver" is consistent across batches?

**A:** Our advanced **Acrylic** particle suspension technology ensures the glitter remains evenly distributed in every can. Combined with our digital tinting system (Error <0.1%), we guarantee that every batch of **Glitter Blue Silver** maintains perfect color and sparkle consistency.
