The multi-dimensional manifestation of technical professionalism

- 2. Resin and Curing System:** The technical team of the company has a profound understanding of the cross-linking reaction mechanism of acrylic resin and isocyanate curing agent. They can precisely control the drying speed of the paint film, as well as the balance between final hardness and flexibility. According to different climate regions, they have developed special formulations that are suitable for high humidity and heat, cold regions, and strong ultraviolet environments.
- 3. Color Development Capability:** Leveraging a rich color master system and a professional color matching database, the company is able to quickly match the original factory colors of various vehicle models, meeting the strict color accuracy requirements of the repair market.
- 4. Safety and Compliance Assurance:** All products are accurately classified in accordance with the United Nations GHS system and Chinese national standards (GB 30000 series). They come with complete safety data sheets (SDS) and compliant labels that meet the requirements of GB/T 16483 and GB 15258. During the transportation process, strict compliance with international dangerous goods regulations such as UN1263 (Class 3 Flammable Liquids) is followed. Each batch of exported products is entrusted to an authoritative institution to obtain the "Cargo Transportation Condition Appraisal Certificate" to ensure full chain safety and compliance from production to delivery.

FAQ

Q1: Can your Mussels Blue withstand the extreme heat in the Middle East?

A: Yes. Our **Acrylic-based** system is specifically designed for harsh climates. It provides exceptional UV resistance and thermal stability, ensuring the **Mussels Blue** maintains its depth and gloss even in temperatures exceeding 50°C.

Q2: How does your quality compare to PPG or Yatu?

A: We benchmark directly against **PPG, Yatu, and Baohong**. Our **Mussels Blue** offers identical chemical resistance and gloss levels at factory prices.

Q3: What is your MOQ for custom brand packaging?

A: For partners looking to build their own brand, the MOQ for **custom logo and packaging** is 300 units. We provide full design support to ensure your local market success.
