

Car Repair Paint 410 Extra Silver 1L Acrylic Metallic Precision Mixing Factory 7-14 Days

Our Product Introduction

for more products please visit us on refinishcarpaint.com

Basic Information

- Place of Origin: CHINA
- Brand Name: Car Charm
- Certification: ISO,MSDS,SGS
- Model Number: 410
- Minimum Order Quantity: 50L
- Price: 2.73USD-5.56USD
- Packaging Details: Carton, Iron canister
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500 boxes -1000 boxes per day

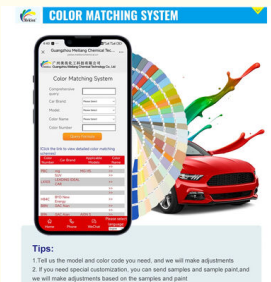

Product Specification

- Gloss Retention: High
- Color Options: Multiple
- Auto Paint Manufacturer: Meklon
- Package Size: Varies By Product
- Main Raw Materials: Resine, Solvent, Pigment
- Application Method: Spray
- Surface compatibility: Metal
- Applicable Models: All
- Manufacturer Services: Technical Support/Customizable/OEM/ODM
- Factory Services: OEM, Technology Service
- Water Resistance: Yes
- Fields Of Use: Car Repair/Car Detailing

Car Repair Paint 410 Extra Silver 1L Acrylic Metallic Precision Mixing Factory 7-14 Days

Meiliang Chemical is a professional manufacturer of complete Acrylic automotive refinish systems. Our 410 Extra Silver is a high-performance 2K metallic tinter, whose metallic luster, fineness and weather resistance are fully comparable with global top brands including PPG, Yatu, AkzoNobel, Sherwin-Williams and Baohong.

As a direct factory with 60,000 m² production base, we support large-quantity wholesale and full OEM/ODM customization. All products reach OE-level performance with steady 7-14 days delivery cycle, helping your distribution business gain stronger market competitiveness and profit space.

Features & Advantages

- **Premium Extra Metallic Silver Tone:** 410 Extra Silver features fine and evenly distributed aluminum particles, delivering mirror high-gloss metallic luster. Ideal for automotive refinishing and various industrial coating applications.
- **100% Acrylic Resin Base:** Made of premium acrylic resin to realize lasting gloss, high surface hardness and excellent chemical resistance for durable painting results.
- **Outstanding UV & Weather Stability:** Anti-fading formula prevents darkening and chalking. It adapts to intense sunlight and extreme heat, perfect for Middle East, Africa, South America and other harsh regions.
- **High-Solid Content (HS):** High-solid formula provides powerful hiding power to cut spraying coats. Lower paint consumption helps upgrade overall workshop construction efficiency.
- **Excellent Spray Workability:** Stable atomization performance avoids silver floating and blooming. Easy to spray for all workers and compatible with mainstream spraying equipment.
- **International Quality Benchmarking:** The formula and production standards are formulated with reference to global top-tier automotive paint brands including PPG, Yatu, AkzoNobel, Sherwin-Williams, and Baohong. The finished product's metallic effect, hardness, weather resistance and service life can fully replace imported high-end silver tint.
- **Direct Factory Sourcing:** Backed by our self-owned 60,000 m² standardized ISO-certified production base, we eliminate intermediate distributors. We provide ultra-cost-effective bulk wholesale prices for global partners, helping overseas distributors and retailers expand market share and maximize profit margins. We support large-volume bulk orders and scattered small-batch trial orders, with a fixed stable 7-14 days lead time for all global cross-border shipments.
- **OEM & Custom Branding:** One-stop private label customization service is available. We support personalized customization including product labels, outer packaging, color box printing and exclusive logo engraving, with a low MOQ of 300 units, helping global clients build independent private brands easily.
- **High Mixing Compatibility:** Integrated with the intelligent acrylic tinting system database independently developed by our factory. 410 Extra Silver is compatible with all series of our automotive refinish paints, with 99.9% color matching accuracy, convenient for customers to deploy various metallic silver color schemes quickly.

Product Specifications

Paint Film Property	Scratch-resistant
HS Code	320820
Level	High
Certification	ISO4001, ISO9001, ISO16949
Substrate	Acrylic
Components	Pigment
Formation Mechanism	Non Conversion Type
Transport Package	Carton Box
Shelf life	3-5years
MOQ	50L
Carton Specification	45*33.5*13.8
Delivery	By sea

Key Performance Features

Excellent Adhesion

Ensures corrosion-resistant, long-lasting finishes on car surfaces while minimizing rework in collision repair applications.

Strong Covering Power

High-performance automotive paint with primer-ready formula achieves flawless adhesion and durability on pre-treated metal surfaces using compatible epoxy primers.

High Chroma Color

Ultra-high chroma automotive paint with Pantone®-validated color intensity delivers vibrant, fade-resistant finishes for custom cars and luxury restorations (ISO 105-A05 xenon test certified).

Manufacturer Advantages

Guangzhou Meklon Chemical Technology Co., Ltd

Guangzhou MEKLON Chemical Technology Co., Ltd. is a leading automotive chemical manufacturer specializing in paints, primers, and additives. With over 15 years of experience, it operates a 60,000 m² facility, adhering to ISO9001 and ISO14001 standards.

The company provides high-quality, low VOC products and supports distributors with color formula software, mixing machines, and training.

- **Global Reach:** Sales network covers more more than 65 countries with over 1,500 customers in China
- **Industry Partnerships:** Established relationships with well-known automobile manufacturers, shipbuilding, and machinery manufacturers
- **Professional Support:** Comprehensive technical support and timely after-sales service from order placement through completion
- **Custom Solutions:** Customized options available for special colors and effects to meet individual customer requirements

The multi-dimensional manifestation of technical professionalism

- 2. Resin and Curing System:** The technical team of the company has a profound understanding of the cross-linking reaction mechanism of acrylic resin and isocyanate curing agent. They can precisely control the drying speed of the paint film, as well as the balance between final hardness and flexibility. According to different climate regions, they have developed special formulations that are suitable for high humidity and heat, cold regions, and strong ultraviolet environments.
- 3. Color Development Capability:** Leveraging a rich color master system and a professional color matching database, the company is able to quickly match the original factory colors of various vehicle models, meeting the strict color accuracy requirements of the repair market.
- 4. Safety and Compliance Assurance:** All products are accurately classified in accordance with the United Nations GHS system and Chinese national standards (GB 30000 series). They come with complete safety data sheets (SDS) and compliant labels that meet the requirements of GB/T 16483 and GB 15258. During the transportation process, strict compliance with international dangerous goods regulations such as UN1263 (Class 3 Flammable Liquids) is followed. Each batch of exported products is entrusted to an authoritative institution to obtain the "Cargo Transportation Condition Appraisal Certificate" to ensure full chain safety and compliance from production to delivery.

FAQ

Q1: What are the characteristics of 410 Extra Silver?

A: 410 Extra Silver is a high-brightness fine metallic silver paint. It presents exquisite mirror silver effect with uniform metal particles, widely used for automotive refinishing and decorative coating.

Q2: How about its quality compared with mainstream brands like PPG?

A: We develop 410 Extra Silver referring to PPG and Yatu standards. Adopting pure Acrylic formula, it owns the same metallic gloss, scratch resistance and UV protection, with factory direct price advantage.

Q3: Does 410 Extra Silver have good hiding power?

A: Yes. Made of high-solid Acrylic raw materials, this silver paint has excellent hiding power. For better metallic presentation, we suggest spraying on black or dark grey primer.

Q4: Can we customize packaging with our own logo?

A: Definitely. We provide full custom logo and packaging service (OEM/ODM) for orders over 300 units to support your brand development.
