

Wholesale Car Paint X10 Special Red Pearl Acrylic Factory Price 7-14 Days

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: Mei Guan Da
- Certification: ISO,MSDS,SGS
- Model Number: X10
- Minimum Order Quantity: 50L
- Price: 2.73USD/L-5.56USD/L
- Packaging Details: Carton- Iron canister
- Delivery Time: 7~14 working days
- Payment Terms: T/T
- Supply Ability: 500 boxes -1000 boxes per day

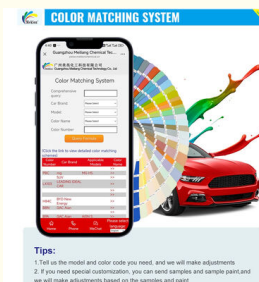

Product Specification

- Gloss Retention: High
- Manufacture Location: Guangdong,China
- Fade Resistance: Yes
- Net Weigh: 0.95KG
- Surfacecompatibility: Metal
- Package: Can/carton
- Uv Resistance: Yes
- Quality: Good
- Coats: 2-3

Product Description

Wholesale Car Paint X10 Special Red Pearl Acrylic Factory Price 7-14 Days

Meklon Chemical's **X10 High Brilliant Red Pearl** represents the pinnacle of special effect tinters. Specifically developed to outperform standard pigments from brands like **PPG, AkzoNobel, and Sherwin-Williams**, X10 provides a significantly deeper, more saturated red chroma with a coarser metallic flash.

Our **Acrylic-based** formulation ensures excellent inter-coat adhesion and weather resistance, making it the ideal choice for high-end boutique body shops in **Russia, the Middle East, and South America**. With a **60,000 m² factory** behind us, we guarantee consistent quality and a stable **7-14 days supply chain**.

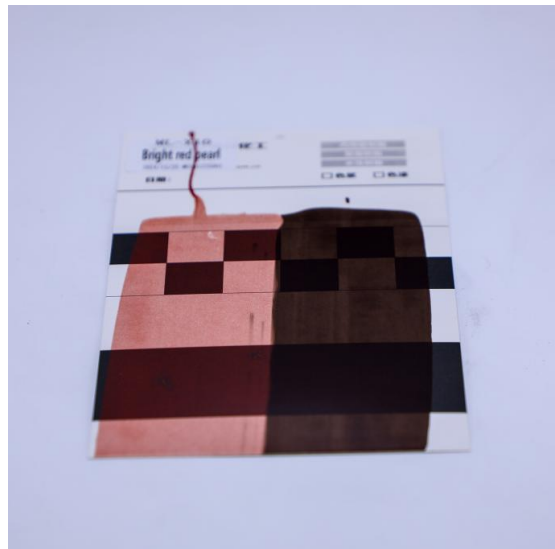

Features & Advantages

- **Professional Quality:** Our high-performance **Acrylic-based** formula ensures a 99.9% color match and high-gloss finish that rivals international Tier-1 standards.
- **Durable Performance:** Engineered for extreme climates, this high-solid paint offers superior UV resistance and exceptional hiding power with just 1.5-2 coats.
- **Reliable Supply:** Backed by our **60,000 m² ISO facility**, we guarantee a stable wholesale supply with a reliable **7-14 days lead time**.
- **Business Flexibility:** We provide factory-direct pricing and support full **OEM/ODM branding** with a low MOQ of only 300 units.

Product Specifications

Paint Film Property	Scratch-resistant
HS Code	320820
Level	High
Certification	ISO4001, ISO9001, ISO16949
Substrate	Acrylic
Components	Pigment
Formation Mechanism	Non Conversion Type
Transport Package	Carton Box
Shelf life	3-5years
MOQ	50L
Carton Specification	45*33.5*13.8
Delivery	By sea

Key Performance Features

Excellent Adhesion

Ensures corrosion-resistant, long-lasting finishes on car surfaces while minimizing rework in collision repair applications.

Strong Covering Power

High-performance automotive paint with primer-ready formula achieves flawless adhesion and durability on pre-treated metal surfaces using compatible epoxy primers.

High Chroma Color

Ultra-high chroma automotive paint with Pantone®-validated color intensity delivers vibrant, fade-resistant finishes for custom cars and luxury restorations (ISO 105-A05 xenon test certified).

Manufacturer Advantages

Guangzhou Meklon Chemical Technology Co., Ltd

Guangzhou MEKLON Chemical Technology Co., Ltd. is a leading automotive chemical manufacturer specializing in paints, primers, and additives. With over 15 years of experience, it operates a 60,000 m² facility, adhering to ISO9001 and ISO14001 standards. The

company provides high-quality, low VOC products and supports distributors with color formula software, mixing machines, and training.

- **Global Reach:** Sales network covers more more than 65 countries with over 1,500 customers in China
- **Industry Partnerships:** Established relationships with well-known automobile manufacturers, shipbuilding, and machinery manufacturers
- **Professional Support:** Comprehensive technical support and timely after-sales service from order placement through completion
- **Custom Solutions:** Customized options available for special colors and effects to meet individual customer requirements

The multi-dimensional manifestation of technical professionalism

- 1. Resin and Curing System:** The technical team of the company has a profound understanding of the cross-linking reaction mechanism of acrylic resin and isocyanate curing agent. They can precisely control the drying speed of the paint film, as well as the balance between final hardness and flexibility. According to different climate regions, they have developed special formulations that are suitable for high humidity and heat, cold regions, and strong ultraviolet environments.
- 2. Color Development Capability:** Leveraging a rich color master system and a professional color matching database, the company is able to quickly match the original factory colors of various vehicle models, meeting the strict color accuracy requirements of the repair market.
- 3. Safety and Compliance Assurance:** All products are accurately classified in accordance with the United Nations GHS system and Chinese national standards (GB 30000 series). They come with complete safety data sheets (SDS) and compliant labels that meet the requirements of GB/T 16483 and GB 15258. During the transportation process, strict compliance with international dangerous goods regulations such as UN1263 (Class 3 Flammable Liquids) is followed. Each batch of exported products is entrusted to an authoritative institution to obtain the "Cargo Transportation Condition Appraisal Certificate" to ensure full chain safety and compliance from production to delivery.

FAQ

Q1: What is the difference between X10 and standard Crystal Red Pearl?

A: X10 is engineered with a larger flake size and higher pigment concentration. This results in a "coarser" and more vibrant sparkle that is far more visible in direct sunlight compared to standard crystal pearls.

Q2: Is X10 suitable for a 3-stage pearl system?

A: Yes. X10 is an excellent choice for the pearl mid-coat in a 3-stage system. Its high transparency ensures the ground coat color shines through while providing a luxurious, brilliant red flip.

Q3: How does the Acrylic system handle extreme heat in the Middle East?

A: Our Acrylic-based system is specifically modified for thermal stability. The X10 pigments are encapsulated to prevent oxidation and fading even in regions with constant 40°C+ temperatures and high UV indices.

Q4: Do you offer samples for color matching?

A: We encourage wholesalers to test our quality. Sample tins are available upon request. For OEM orders, our lab can customize the flake size of the X10 series to meet your specific market needs.
