

Automotive Refinish 208 Blue 2K Tinter Acrylic Yatu Standard 7-14 Days

Our Product Introduction

for more products please visit us on refinishcarpaint.com

Basic Information

- Place of Origin: CHINA
- Brand Name: Mei Guan Da
- Certification: ISO,MSDS,SGS
- Model Number: 208
- Minimum Order Quantity: 50L
- Price: 2.73USD-5.56USD
- Packaging Details: Carton- Iron canister
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500 boxes -1000 boxes per day

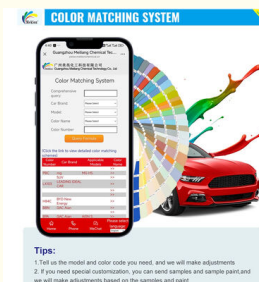

Product Specification

- Gloss Retention: High
- Service: OEM/ODM
- Resistance: Scratch, UV, And Weather
- Sheen: High
- Manufacturer: Meklon
- Type: Automotive Refinish Paint
- Surface Type: Metal
- Wholesale Purchase: Yes
- Productname: Refinish Car Paint
- Formula Color App: Meklonpaintmix

Product Description

Automotive Refinish 208 Blue 2K Tinter Acrylic Yatu Standard 7-14 Days

Meklon Chemical's **208 Blue 2K Tinter** is a high-performance **Acrylic** colorant specifically developed for professional automotive refinishing. Benchmarked against global leaders like **PPG and AkzoNobel**, this tinter offers outstanding UV resistance and color durability.

Produced in our **60,000 m² state-of-the-art facility**, we provide the purity and consistency required for complex color formulations. With a **7-14 days lead time**, we are the preferred partner for wholesalers in the Middle East, Africa, and Russia looking for Tier-1 quality at factory-direct prices.

Features & Advantages

- 2. High Tinting Strength:** Our **Acrylic-based 208 Blue** offers high pigment concentration for superior hiding power and precise color matching.
- 3. Industrial Durability:** Formulated for extreme environments, ensuring high-gloss retention and excellent resistance to UV rays and chemical exposure.
- 4. Global Supply Chain:** Backed by our **60,000 m² ISO plant**, we guarantee a stable wholesale supply with a reliable **7-14 days lead time**.
- 5. OEM Partnership:** We offer competitive factory pricing and support full **OEM/ODM services** for your own brand with a low 300-unit MOQ.

Product Specifications

Paint Film Property	Scratch-resistant
HS Code	320820
Level	High
Certification	ISO4001, ISO9001, ISO16949
Substrate	Acrylic
Components	Pigment
Formation Mechanism	Non Conversion Type
Transport Package	Carton Box
Shelf life	3-5years
MOQ	50L
Carton Specification	45*33.5*13.8
Delivery	By sea

Key Performance Features

Excellent Adhesion

Ensures corrosion-resistant, long-lasting finishes on car surfaces while minimizing rework in collision repair applications.

Strong Covering Power

High-performance automotive paint with primer-ready formula achieves flawless adhesion and durability on pre-treated metal surfaces using compatible epoxy primers.

High Chroma Color

Ultra-high chroma automotive paint with Pantone®-validated color intensity delivers vibrant, fade-resistant finishes for custom cars and luxury restorations (ISO 105-A05 xenon test certified).

Manufacturer Advantages

Guangzhou Meklon Chemical Technology Co., Ltd

Guangzhou MEKLON Chemical Technology Co., Ltd. is a leading automotive chemical manufacturer specializing in paints, primers, and additives. With over 15 years of experience, it operates a 60,000 m² facility, adhering to ISO9001 and ISO14001 standards. The

company provides high-quality, low VOC products and supports distributors with color formula software, mixing machines, and training.

Global Reach: Sales network covers more more than 65 countries with over 1,500 customers in China

Industry Partnerships: Established relationships with well-known automobile manufacturers, shipbuilding, and machinery manufacturers

Professional Support: Comprehensive technical support and timely after-sales service from order placement through completion

Custom Solutions: Customized options available for special colors and effects to meet individual customer requirements

The multi-dimensional manifestation of technical professionalism

Resin and Curing System: The technical team of the company has a profound understanding of the cross-linking reaction mechanism of acrylic resin and isocyanate curing agent. They can precisely control the drying speed of the paint film, as well as the balance between final hardness and flexibility. According to different climate regions, they have developed special formulations that are suitable for high humidity and heat, cold regions, and strong ultraviolet environments.

Color Development Capability: Leveraging a rich color master system and a professional color matching database, the company is able to quickly match the original factory colors of various vehicle models, meeting the strict color accuracy requirements of the repair market.

Safety and Compliance Assurance: All products are accurately classified in accordance with the United Nations GHS system and Chinese national standards (GB 30000 series). They come with complete safety data sheets (SDS) and compliant labels that meet the requirements of GB/T 16483 and GB 15258. During the transportation process, strict compliance with international dangerous goods regulations such as UN1263 (Class 3 Flammable Liquids) is followed. Each batch of exported products is entrusted to an authoritative institution to obtain the "Cargo Transportation Condition Appraisal Certificate" to ensure full chain safety and compliance from production to delivery.

FAQ

Q1: What is the primary phase of 208 Blue?

A: **208 Blue** is a pure, standard blue tinter. It provides a clean blue phase without excessive red or green shifts, making it the most versatile base for mixing various automotive blues.

Q2: Is the 208 Tinter compatible with other 2K systems?

A: Our **208 Blue** is fully compatible with most international **Acrylic 2K systems**. It integrates seamlessly into existing mixing formulas to achieve professional Tier-1 results.

Q3: How does the lead time affect my bulk inventory?

A: With our **7-14 days lead time**, you can reduce safety stock levels and improve cash flow, knowing that your supply of core tinters like **208 Blue** is always reliable.
