

Wholesale X02 Crystal Red Pearl 1L Acrylic Paint Factory Price 7-14 Days

Our Product Introduction

for more products please visit us on refinishcarpaint.com

Basic Information

- Brand Name: Mei Guan Da
- Certification: ISO,MSDS,SGS
- Model Number: X02
- Minimum Order Quantity: 50L
- Price: 2.73USD-5.56USD
- Packaging Details: Carton, Iron canister
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500 boxes -1000 boxes per day

Product Specification

- Gloss Retention: High
- Scrub Resistance: Yes
- Basematerial: Acrylic
- Application Method: Spray
- Form: Liquid
- Package: Carton
- Professional Quality: Provides Professional Quality Finish
- State: Liquid Coating
- Size: Various Sizes
- Applicationmethod: Spray
- Applicable Scenarios: Car Paint Mixing
- Surface Compatibility: Metal
- Highlight: **X02 Crystal Red Pearl acrylic paint, 1L refinish car paint, wholesale acrylic paint with warranty**

Wholesale X02 Crystal Red Pearl 1L Acrylic Paint Factory Price 7-14 Days

Meklon Chemical's **X02 Crystal Red Pearl** is a premium 1K effect tinter designed to rival the high-end pearl series of **PPG, AkzoNobel, and Sherwin-Williams**. The **Acrylic-based** system provides exceptional clarity, allowing the crystal red particles to deliver a profound "diamond" sparkle under direct light.

As a **direct manufacturer with a 60,000 m² facility**, we specialize in **OEM/ODM solutions** and large-scale distribution. With our **7-14 days lead time**, we provide the consistency and speed required for the Middle East, Russian, and South American markets.

Features & Advantages

- 1. Dazzling Sparkle:** X02 Crystal Red Pearl delivers a high-intensity crystal effect with superior brilliance that exceeds standard pearl pigments.
- 2. UV-Stable Acrylic:** Formulated with premium **Acrylic** resins to ensure the vivid red pearl remains fade-resistant and gloss-rich in extreme climates.
- 3. Reliable Delivery:** Backed by our **60,000 m² ISO plant**, we guarantee a stable wholesale supply with a fast **7-14 days lead time**.
- 4. OEM Private Branding:** We support full **OEM/ODM branding** with custom labels and packaging, starting from a low MOQ of just 300 units.

Product Specifications

Paint Film Property	Scratch-resistant
HS Code	320820
Level	High
Certification	ISO4001, ISO9001, ISO16949
Substrate	Acrylic
Components	Pigment
Formation Mechanism	Non Conversion Type
Transport Package	Carton Box
Shelf life	3-5years
MOQ	50L
Carton Specification	45*33.5*13.8
Delivery	By sea

Key Performance Features

Excellent Adhesion

Ensures corrosion-resistant, long-lasting finishes on car surfaces while minimizing rework in collision repair applications.

Strong Covering Power

High-performance automotive paint with primer-ready formula achieves flawless adhesion and durability on pre-treated metal surfaces using compatible epoxy primers.

High Chroma Color

Ultra-high chroma automotive paint with Pantone®-validated color intensity delivers vibrant, fade-resistant finishes for custom cars and luxury restorations (ISO 105-A05 xenon test certified).

Manufacturer Advantages

Guangzhou Meklon Chemical Technology Co., Ltd

Guangzhou MEKLON Chemical Technology Co., Ltd. is a leading automotive chemical manufacturer specializing in paints, primers, and additives. With over 15 years of experience, it operates a 60,000 m² facility, adhering to ISO9001 and ISO14001 standards. The company provides high-quality, low VOC products and supports distributors with color formula software, mixing machines, and

training.

Global Reach: Sales network covers more more than 65 countries with over 1,500 customers in China

Industry Partnerships: Established relationships with well-known automobile manufacturers, shipbuilding, and machinery manufacturers

Professional Support: Comprehensive technical support and timely after-sales service from order placement through completion

Custom Solutions: Customized options available for special colors and effects to meet individual customer requirements

The multi-dimensional manifestation of technical professionalism

- **Resin and Curing System:** The technical team of the company has a profound understanding of the cross-linking reaction mechanism of acrylic resin and isocyanate curing agent. They can precisely control the drying speed of the paint film, as well as the balance between final hardness and flexibility. According to different climate regions, they have developed special formulations that are suitable for high humidity and heat, cold regions, and strong ultraviolet environments.
- **Color Development Capability:** Leveraging a rich color master system and a professional color matching database, the company is able to quickly match the original factory colors of various vehicle models, meeting the strict color accuracy requirements of the repair market.
- **Safety and Compliance Assurance:** All products are accurately classified in accordance with the United Nations GHS system and Chinese national standards (GB 30000 series). They come with complete safety data sheets (SDS) and compliant labels that meet the requirements of GB/T 16483 and GB 15258. During the transportation process, strict compliance with international dangerous goods regulations such as UN1263 (Class 3 Flammable Liquids) is followed. Each batch of exported products is entrusted to an authoritative institution to obtain the "Cargo Transportation Condition Appraisal Certificate" to ensure full chain safety and compliance from production to delivery.

FAQ

Q1: How does X02 differ from standard Red Pearl?

A: X02 Crystal Red Pearl uses a synthetic crystal substrate which is clearer and more reflective than natural mica used in standard pearls. This results in a much sharper, "cleaner" sparkle.

Q2: Does the wet paint in the can represent the final color?

A: No. The true depth and sparkle of X02 only appear **after the paint is sprayed and cured on a test panel**. Always perform a spray-out to confirm the final visual effect before full application.

Q3: Is a specific ground coat needed for X02?

A: To maximize the "Crystal Red" effect, we recommend a **deep red or black ground coat**. This creates the necessary contrast to make the crystal flakes "pop."
