

## Wholesale 418 Golden Silver 1K Metallic Acrylic Paint Factory Price 7-14 Days

Our Product Introduction

### Basic Information

- Place of Origin: CHINA
- Brand Name: Mei Guan Da
- Certification: ISO,MSDS,SGS
- Model Number: 418
- Minimum Order Quantity: 50L
- Price: 2.73USD/L-5.56USD/L
- Packaging Details: Carton, Iron canister
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500 boxes -1000 boxes per day

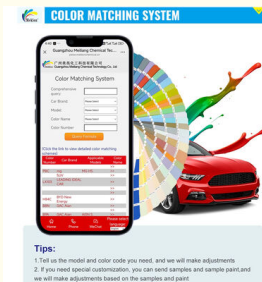

### Product Specification

- Gloss Retention: High
- Suitable For: Automotive Use
- Odor: Low
- Sheen: High Gloss
- Application method: Spray Gun
- Storage Requirements: Cool, Dry Place
- Scratch Resistance: Yes
- Working: Agitator
- Colors: Gold
- Manufacture Location: Guangdong, China
- Formula Color App: Meklonpaintmix
- Uv Resistant: Yes

## Product Description

### Wholesale 418 Golden Silver 1K Metallic Acrylic Paint Factory Price 7-14 Days

Meklon Chemical's **MK-418 Gold Yellow Silver** is an elite 1K metallic colorant designed to match the premium gold and bronze formulas of global leaders like **PPG, AkzoNobel, Sherwin-Williams, and Baohong**. The specialized **Acrylic-based** formula provides superior flake alignment, preventing mottling and ensuring a flawlessly uniform golden metallic "flip."

Manufactured at our **60,000 m<sup>2</sup> production base**, we guarantee high batch-to-batch consistency and a reliable **7-14 days lead time** for our B2B partners. We offer low-MOQ **OEM/ODM branding (300 units)** to help you launch a premium metallic line in your local market.

### Features & Advantages

- **Vibrant Golden Sheen:** MK-418 features high-chroma golden metallic flakes that create a brilliant, high-saturation gold luster.
- **Anti-Mottling Acrylic:** Our **Acrylic-based** system ensures excellent flake orientation to prevent paint mottling and ensure a smooth metallic finish.
- **Fast Factory Shipping:** Backed by our **60,000 m<sup>2</sup> ISO facility**, ensuring stable bulk wholesale supply with a reliable **7-14 days lead time**.
- **Flexible OEM Branding:** We support customized labeling and packaging with a low MOQ of only **300 units** for your proprietary brand.

### Product Specifications

Paint Film Property	Scratch-resistant
HS Code	320820
Level	High
Certification	ISO4001, ISO9001, ISO16949
Substrate	Acrylic
Components	Pigment
Formation Mechanism	Non Conversion Type
Transport Package	Carton Box
Shelf life	3-5years
MOQ	50L
Carton Specification	45*33.5*13.8
Delivery	By sea

## Key Performance Features

### Excellent Adhesion

Ensures corrosion-resistant, long-lasting finishes on car surfaces while minimizing rework in collision repair applications.

### Strong Covering Power

High-performance automotive paint with primer-ready formula achieves flawless adhesion and durability on pre-treated metal surfaces using compatible epoxy primers.

### High Chroma Color

Ultra-high chroma automotive paint with Pantone®-validated color intensity delivers vibrant, fade-resistant finishes for custom cars and luxury restorations (ISO 105-A05 xenon test certified).

## Manufacturer Advantages

### Guangzhou Meklon Chemical Technology Co., Ltd

Guangzhou MEKLON Chemical Technology Co., Ltd. is a leading automotive chemical manufacturer specializing in paints, primers, and additives. With over 15 years of experience, it operates a 60,000 m<sup>2</sup> facility, adhering to ISO9001 and ISO14001 standards. The

company provides high-quality, low VOC products and supports distributors with color formula software, mixing machines, and training.

**Global Reach:** Sales network covers more more than 65 countries with over 1,500 customers in China

**Industry Partnerships:** Established relationships with well-known automobile manufacturers, shipbuilding, and machinery manufacturers

**Professional Support:** Comprehensive technical support and timely after-sales service from order placement through completion

**Custom Solutions:** Customized options available for special colors and effects to meet individual customer requirements

### **The multi-dimensional manifestation of technical professionalism**

---

- **Resin and Curing System:** The technical team of the company has a profound understanding of the cross-linking reaction mechanism of acrylic resin and isocyanate curing agent. They can precisely control the drying speed of the paint film, as well as the balance between final hardness and flexibility. According to different climate regions, they have developed special formulations that are suitable for high humidity and heat, cold regions, and strong ultraviolet environments.
- **Color Development Capability:** Leveraging a rich color master system and a professional color matching database, the company is able to quickly match the original factory colors of various vehicle models, meeting the strict color accuracy requirements of the repair market.
- **Safety and Compliance Assurance:** All products are accurately classified in accordance with the United Nations GHS system and Chinese national standards (GB 30000 series). They come with complete safety data sheets (SDS) and compliant labels that meet the requirements of GB/T 16483 and GB 15258. During the transportation process, strict compliance with international dangerous goods regulations such as UN1263 (Class 3 Flammable Liquids) is followed. Each batch of exported products is entrusted to an authoritative institution to obtain the "Cargo Transportation Condition Appraisal Certificate" to ensure full chain safety and compliance from production to delivery.

## FAQ

---

Q1: How do I prevent "clouding" or "mottling" when spraying 418 Gold Yellow Silver?

**A:** Because **MK-418** is a highly concentrated metallic tinter, correct flake orientation is crucial. We recommend utilizing a medium-wet coat followed by a light drop coat. Ensure your **Acrylic clear coat** is applied only after the metallic coat has fully flashed off.

**Q2: Why does the gold color in the can look dull compared to the sample board?**

**A:** This is standard for colored metallic tinters. The golden metallic reflection only achieves its true depth and brilliancy **after the paint is properly atomized, sprayed, and cured on a test panel**. Never judge the final shade by the wet paint inside the can; **always run a spray-out test first**.

**Q3: Can 418 be mixed with other solid colors or pearls?**

**A:** Absolutely. **MK-418** is fully compatible with our entire 1K/2K **Acrylic mixing system**. It can be blended with transparent yellows, reds, or pearls to create unique bronze, copper, or champagne gold custom colors.
