

Refinish Car Paint and consistent automotive paint systems suitable for in professional auto body repair and refinishing Crystal Yellow Pearl

Our Product Introduction

for more products please visit us on refinishcarpaint.com

Basic Information

- Place of Origin: CHINA
- Brand Name: Mei Guan Da
- Certification: ISO,MSDS,SGS
- Model Number: X04
- Minimum Order Quantity: 50L
- Price: 2.73USD/L-5.56USD/L
- Packaging Details: Carton- Iron canister
- Delivery Time: 7~14 working days
- Payment Terms: T/T
- Supply Ability: 500 boxes -1000 boxes per day

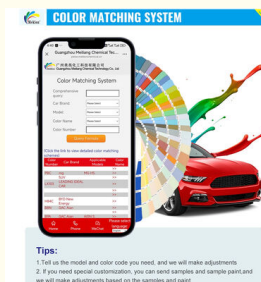

Product Specification

- Manufacture Location: Guangdong,China
- Fade Resistance: Yes
- Net Weigh: 0.95KG
- Surfacecompatibility: Metal
- Package: Can/carton
- Uv Resistance: Yes
- Quality: Good
- Coats: 2-3
- Top Coat Required: Yes
- Voc: Low
- Specification: 1L/4L/5L
- Product: Ready Mixed Paint
- Highlight: **Refinish car paint Crystal Yellow Pearl, Automotive paint systems for auto body repair, Professional car paint basecoat with warranty**

Product Description

Refinish Car Paint and consistent automotive paint systems suitable for in professional auto body repair and refinishing Crystal Yellow Pearl

Meklon Chemical's **X04 Crystal Yellow Pearl** is an elite 1K effect colorant engineered to match the luxury golden pearl finishes of global Tier-1 brands like **PPG, AkzoNobel, and Sherwin-Williams**. It is a critical component for restoring complex champagne and gold OEM colors. Our specialized **Acrylic-based** formulation delivers exceptional clarity and a "pure gold" flip without any muddy or gray undertones.

Manufactured in our **60,000 m² state-of-the-art facility**, we provide consistent quality for professional wholesalers. We offer a reliable **7-14 days lead time** and full **OEM/ODM branding support (300 units)** to help you establish a premium position in your local market.

Features & Advantages

Dazzling Golden Sparkle: X04 Crystal Yellow Pearl features synthetic crystal flakes for a clearer, more intense golden shimmer than natural mica.

UV-Stable Acrylic: Our high-quality **Acrylic-based** system ensures the vibrant yellow pearl remains fade-resistant and stable in extreme climates.

Direct Factory Shipping: Backed by our **60,000 m² ISO plant**, ensuring a stable wholesale supply and a reliable **7-14 days lead time**.

OEM Branding Ready: We provide factory-direct prices and support full **OEM/ODM services** with custom packaging at a low 300-unit MOQ.

Product Specifications

Paint Film Property	Scratch-resistant
HS Code	320820
Paint Quality	High
Certification	ISO4001, ISO9001, ISO16949
Substrate	Acrylic
Components	Pigment
Formation Mechanism	Non Conversion Type
Transport Package	Carton Box
Shelf life	3-5years
MOQ	50L
Carton Specification	45*33.5*13.8
Delivery	By sea,land carriage

Key Performance Features

Excellent Adhesion

Ensures corrosion-resistant, long-lasting finishes on car surfaces while minimizing rework in collision repair applications.

Strong Covering Power

High-performance automotive paint with primer-ready formula achieves flawless adhesion and durability on pre-treated metal surfaces using compatible epoxy primers.

High Chroma Color

Ultra-high chroma automotive paint with Pantone®-validated color intensity delivers vibrant, fade-resistant finishes for custom cars and luxury restorations (ISO 105-A05 xenon test certified).

Manufacturer Advantages

Guangzhou Meklon Chemical Technology Co., Ltd

Guangzhou MEKLON Chemical Technology Co., Ltd. is a leading automotive chemical manufacturer specializing in paints, primers, and additives. With over 15 years of experience, it operates a 60,000 m² facility, adhering to ISO9001 and ISO14001 standards. The

company provides high-quality, low VOC products and supports distributors with color formula software, mixing machines, and training.

- **Global Reach:** Sales network covers more more than 65 countries with over 1,500 customers in China
- **Industry Partnerships:** Established relationships with well-known automobile manufacturers, shipbuilding, and machinery manufacturers
- **Professional Support:** Comprehensive technical support and timely after-sales service from order placement through completion
- **Custom Solutions:** Customized options available for special colors and effects to meet individual customer requirements

The multi-dimensional manifestation of technical professionalism

1. **Resin and Curing System:** The technical team of the company has a profound understanding of the cross-linking reaction mechanism of acrylic resin and isocyanate curing agent. They can precisely control the drying speed of the paint film, as well as the balance between final hardness and flexibility. According to different climate regions, they have developed special formulations that are suitable for high humidity and heat, cold regions, and strong ultraviolet environments.
2. **Color Development Capability:** Leveraging a rich color master system and a professional color matching database, the company is able to quickly match the original factory colors of various vehicle models, meeting the strict color accuracy requirements of the repair market.
3. **Safety and Compliance Assurance:** All products are accurately classified in accordance with the United Nations GHS system and Chinese national standards (GB 30000 series). They come with complete safety data sheets (SDS) and compliant labels that meet the requirements of GB/T 16483 and GB 15258. During the transportation process, strict compliance with international dangerous goods regulations such as UN1263 (Class 3 Flammable Liquids) is followed. Each batch of exported products is entrusted to an authoritative institution to obtain the "Cargo Transportation Condition Appraisal Certificate" to ensure full chain safety and

compliance from production to delivery.

FAQ

Q1: How do I achieve the best "Golden Luxury" finish with X04?

A: To maximize the crystal sparkle, we recommend using **X04 Crystal Yellow Pearl** over a **light yellow or beige ground coat**. For a deeper, more antique gold look, it can be applied over a darker base. Always verify the final layers and depth on a **sprayed test panel**.

Q2: Why does the X04 wet paint look different from the sample panel?

A: The true crystalline depth and golden flip of **X04** only appear **after the paint is atomized, sprayed, and cured on a test panel**. The appearance in the can is for viscosity check only. **Always conduct a spray-out test first** to confirm the final result.

Q3: Is X04 suitable for high-temperature regions?

A: Yes. The pigments are encapsulated in our high-grade **Acrylic** resin, making them exceptionally resistant to "burning" or fading under the intense UV rays common in the Middle East and Africa.
