

In Stock Continuous Supply 2K Acrylic Paint High Solid Color Retention Automotive Paint

Our Product Introduction

for more products please visit us on refinishcarpaint.com

Basic Information

- Place of Origin: Ch
- Brand Name: Meklon
- Certification: ISO,MSDS,SGS
- Model Number: Toyota
- Minimum Order Quantity: 50L
- Price: 2.73USD/L-5.56USD/L
- Packaging Details: Box/Carton
- Delivery Time: 10-15 Work Day
- Payment Terms: T/T
- Supply Ability: 500L per day

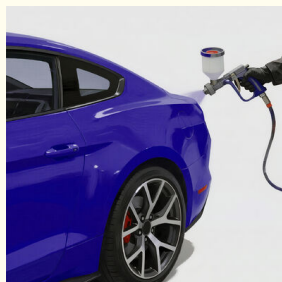

Product Specification

- Number Of Coats: 2-3
- Durability: Long-lasting
- Mixer Type: Static Mixers
- Bmw: Brand
- Working: Agitator
- Formula: Mekloncolormix
- Voc: Low
- Scrub Resistance: Yes
- Uv Protection: Yes
- Water Resistant: Yes
- Scratch Resistance: Yes
- Package: Can/carton
- Highlight: **2K acrylic automotive paint, high solid color retention paint, continuous supply car refinish paint**

Product Description

Cost control technology

Cost Reduction Quartet:

- Metal powder optimization: special aluminum powder replaces 30% copper powder, visual difference $\leq 5\%$.

Packaging Innovation:

- Recyclable iron drums (cost 30% lower than plastic drums).
- 10L large packaging specification (reduces packaging loss).

Process simplification:

- Pre color system reduces color adjustment time.
- Wide temperature curing saves baking energy consumption.

Transportation optimization:

- Concentrated formula increases single box capacity by 20%.

Market validation

Global bestsellers:

- Over 50% market share in Southeast Asia
- Nigeria Ola/Uber designated cooperative product
- Strategic procurement of over 30 fast repair chain brands in China

Manufacturer support:

- 50L minimum order enjoys tiered discount
- Provide free construction training videos
- Free dedicated color matching guide (including 20 popular Asian color codes)

Color matching system

Perfect Color Masterbatch

Color Chips

Paint Colorimeter

FAQ:

Q1: What makes MK-218 Scarlet different from other red colorants on the market?

A: Unlike generic red pigments, MK-218 Scarlet is specially formulated to deliver a clean, slightly bluish red tone with exceptional chroma and hiding power. It avoids the dull, yellowish undertones common in cheaper alternatives, making it ideal for matching vibrant factory red finishes and achieving a true, eye-catching scarlet effect.

Q2: Is this colorant suitable for both basecoat and solid-color applications?

A: Absolutely. MK-218 Scarlet is a versatile single-component colorant that works perfectly in both solid-color topcoats and as a tint in metallic/pearl basecoats. Its strong tinting strength allows you to create everything from a deep, rich scarlet to lighter pinkish-red shades with precise control.

Q3: I need to match a very specific factory red. How accurate is this colorant?

A: Our production process ensures tight color consistency between batches, minimizing variation. For OEM color matching, we recommend testing MK-218 Scarlet with your clear or basecoat system. We also provide detailed mixing ratios to help your technicians achieve the exact shade required.
