

## Hot Sale 1K &2K Primer Factory Direct Weather Resistance &High Gloss Clear coat Auto Paint

Our Product Introduction

for more products please visit us on [refinishcarpaint.com](http://refinishcarpaint.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: Mei Guan Da
- Certification: ISO,MSDS,SGS
- Model Number: 410
- Minimum Order Quantity: 50L
- Price: 2.73USD/L-5.56USD/L
- Packaging Details: Carton- Iron canister
- Delivery Time: 7~14 working days
- Payment Terms: T/T
- Supply Ability: 500 boxes -1000 boxes per day

### Product Specification

- Manufacture Location: Guangdong,China
- Fade Resistance: Yes
- Net Weigh: 0.95KG
- Surfacecompatibility: Metal
- Package: Can/carton
- Uv Resistance: Yes
- Quality: Good
- Coats: 2-3
- Top Coat Required: Yes
- Voc: Low
- Specification: 1L/4L/5L
- Product: Ready Mixed Paint

## Product Description

### Hot Sale 1K &2K Primer Factory Direct Weather Resistance &High Gloss Clear coat Auto Paint

410 Extra Coarse Silver is a 1K single-component metallic colorant from the silver colorant series, specially formulated for automotive paint systems. It is directly compatible with automotive basecoats, and matched with supporting thinner, hardener and clearcoat for convenient mixing and application. Featuring the coarsest evenly dispersed silver flake powder, it delivers distinct three-dimensional metallic silver flash with strong angle color shifting, with minimal risk of mottling or color deviation. Ideal for original paint repairs, vehicle color changes, and custom paint jobs, it is a reliable choice for auto body shops, modification studios, and bulk buyers.

Manufactured in our **60,000 m<sup>2</sup> state-of-the-art facility**, we provide consistent quality for professional wholesalers. We offer a reliable **7-14 days lead time** and full **OEM/ODM branding support (300 units)** to help you establish a premium position in your local market.

### Features & Advantages

**Rich Coarse Metallic Silver Effect:** 410 Extra Coarse Silver adopts the coarsest evenly dispersed silver flake powder, delivering striking three-dimensional metallic flash with strong angle flop effect, better than ordinary silver colorants in grain stereoscopic sense and uniform color performance.

**UV & Weather Resistant:** Made with premium acrylic resin imported from top raw material brands, this colorant keeps bright silver metallic texture without fading or yellowing under long-term sunlight and harsh weather.

**Factory Direct Supply:** Backed by our 60,000 ISO-certified production plant, we guarantee steady mass stock and stable 7-14 days production cycle for on-time delivery.

**Complete Matching Supporting Materials:** Matched dedicated thinner, hardener and clearcoat are available for one-stop procurement, simplifying your mixing and spraying operation.

**OEM & Customization Ready:** Factory direct competitive price with full OEM/ODM service including personalized package and labels, low MOQ of 300 units for flexible brand cooperation.

### Product Specifications

Paint Film Property	Scratch-resistant
HS Code	320820
Paint Quality	High
Certification	ISO4001, ISO9001, ISO16949
Substrate	Acrylic
Components	Pigment
Formation Mechanism	Non Conversion Type
Transport Package	Carton Box
Shelf life	3-5years
MOQ	50L
Carton Specification	45*33.5*13.8
Delivery	By sea,land carriage

## Key Performance Features

### Excellent Adhesion

Ensures corrosion-resistant, long-lasting finishes on car surfaces while minimizing rework in collision repair applications.

### Strong Covering Power

High-performance automotive paint with primer-ready formula achieves flawless adhesion and durability on pre-treated metal surfaces using compatible epoxy primers.

### High Chroma Color

Ultra-high chroma automotive paint with Pantone®-validated color intensity delivers vibrant, fade-resistant finishes for custom cars and luxury restorations (ISO 105-A05 xenon test certified).

## Manufacturer Advantages

## Guangzhou Meklon Chemical Technology Co., Ltd

Guangzhou Meklon Chemical integrates R&D, production and sales of automotive coatings. Our 60,000 modern factory is located in Huacai Chemical Park, Wengcheng Guangdong.

We have over 60 professional chemical engineers, and adopt premium raw materials from global well-known suppliers: BASF, DSM, BYK, BAYER, WANHUA, MERCK SERONO, Dow, DUPONT, ELEMENTIS, allnex, NETZSCH, Toyal.

Certified by ISO9001:2008 & ISO14001:2004, we own advanced testing equipment with 99.5% color difference-free samples. We supply full series auto refinish paints, colorants, clear coats, thinners, putty, chassis coatings and auxiliaries, cooperate with 2,000+ dealers worldwide, and support OEM & ODM with professional after-sales service.

- **Global Reach:** Sales network covers more more than 65 countries with over 1,500 customers in China
- **Industry Partnerships:** Established relationships with well-known automobile manufacturers, shipbuilding, and machinery manufacturers
- **Professional Support:** Comprehensive technical support and timely after-sales service from order placement through completion
- **Custom Solutions:** Customized options available for special colors and effects to meet individual customer requirements

## The multi-dimensional manifestation of technical professionalism

- 1. Resin and Curing System:** The technical team of the company has a profound understanding of the cross-linking reaction mechanism of acrylic resin and isocyanate curing agent. They can precisely control the drying speed of the paint film, as well as the balance between final hardness and flexibility. According to different climate regions, they have developed special formulations that are suitable for high humidity and heat, cold regions, and strong ultraviolet environments.
- 2. Color Development Capability:** Leveraging a rich color master system and a professional color matching database, the company is able to quickly match the original factory colors of various vehicle models, meeting the strict color accuracy requirements of the repair market.
- 3. Safety and Compliance Assurance:** All products are accurately classified in accordance with the United Nations GHS system and Chinese national standards (GB 30000 series). They come with complete safety data sheets (SDS) and compliant labels that meet the requirements of GB/T 16483 and GB 15258. During the transportation process, strict compliance with international dangerous goods regulations such as UN1263 (Class 3 Flammable Liquids) is followed. Each batch of exported products is entrusted to an authoritative institution to obtain the "Cargo Transportation Condition Appraisal Certificate" to ensure full chain safety and

compliance from production to delivery

## FAQ

---

### **Q1: What supporting products match 410 silver perfectly?**

A: We supply complete supporting materials including special thinner, matched hardener and high-gloss clear coat. All accessories are formulated to fit this coarse silver flake, avoiding silver sinking, mottling or loss of metallic flash.

---

### **Q2: Can I order small quantities or samples?**

A: Yes. We offer free samples for testing (you only need to cover the shipping cost). The MOQ for bulk orders is 50 boxes, with OEM/ODM customization available.

---

### **Q3: What documents can you provide for export?**

A: We provide full export documentation, including MSDS, TDS, and COO, to meet customs requirements in most countries.

---

### **Q4: Will this coarse silver cause uneven grain or color deviation easily?**

A: No. Its silver flakes are evenly dispersed during production, greatly reducing the risk of mottling, grain unevenness and color difference. The flop metallic effect is stable under different light angles.

---

### **Q5: How long is your production lead time for bulk orders?**

A: Supported by our 60,000 ISO-certified factory, our stable lead time is 7–14 days to ensure on-time bulk delivery.
