### Automotive Refinish Paint

Meklon 204 Special Black auto base coat features ultra-high blackness with distinct cool bluish tint. It delivers strong hiding capacity and flat smooth film, creating a rich, deep pure black surface for all car repair painting projects.

Manufactured in our state-of-the-art 60,000 m<sup>2</sup> ISO-certified facility, we enforce strict quality controls at every production stage. We offer competitive factory pricing, flexible MOQs and full OEM/ODM customization services to support your brand growth. With a reliable 7-14 days delivery cycle, we are your trusted partner for automotive paint supplies worldwide.

### Features & Advantages

**Cool Bluish High Black Shade:** Model 204 features ultra-high blackness with a distinct cool bluish tint, creating deep pure black without grey undertones to achieve premium automotive finishing effect.

**Smooth Uniform Coating Film:** It forms flat, silky smooth film after spraying with no rough texture, lowering polishing workload and offering consistent deep black presentation.

**Stable Pigment Dispersion:** Fully compatible with 1K automotive basecoat systems, it mixes evenly without pigment agglomeration, floating or mottling during blending and spraying.

**Strong Hiding Power & Durability:** Delivering excellent hiding capacity to reduce spray layers; it features superior weather and abrasion resistance against fading, chipping and outdoor erosion, with bulk supply and OEM customization supported.

#### Guangzhou Meklon Chemical Technology Co., Ltd

Guangzhou MEKLON Chemical Technology Co., Ltd. is a leading automotive chemical manufacturer specializing in paints, primers, and additives. With over 15 years of experience, it operates a 60,000 m<sup>2</sup> facility, adhering to ISO9001 and ISO14001 standards. The company provides high-quality, low VOC products and supports distributors with color formula software, mixing machines, and training.

**Global Reach:** Sales network covers more more than 65 countries with over 1,500 customers in China

**Industry Partnerships:** Established relationships with well-known automobile manufacturers, shipbuilding, and machinery manufacturers

**Professional Support:** Comprehensive technical support and timely after-sales service from order placement through completion

**Custom Solutions:** Customized options available for special colors and effects to meet individual customer requirements

### The multi-dimensional manifestation of technical professionalism

- **Resin and Curing System:** The technical team of the company has a profound understanding of the cross-linking reaction mechanism of acrylic resin and isocyanate curing agent. They can precisely control the drying speed of the paint film, as well as the balance between final hardness and flexibility. According to different climate regions, they have developed special formulations that are suitable for high humidity and heat, cold regions, and strong ultraviolet environments.
- **Color Development Capability:** Leveraging a rich color master system and a professional color matching database, the company is able to quickly match the original factory colors of various vehicle models, meeting the strict color accuracy requirements of the repair market.
- **Safety and Compliance Assurance:** All products are accurately classified in accordance with the United Nations GHS system and Chinese national standards (GB 30000 series). They come with complete safety data sheets (SDS) and compliant labels that meet the requirements of GB/T 16483 and GB 15258. During the transportation process, strict compliance with international dangerous goods regulations such as UN1263 (Class 3 Flammable Liquids) is followed. Each batch of exported products is entrusted to an authoritative institution to obtain the "Cargo Transportation Condition Appraisal Certificate" to ensure full chain safety and compliance from production to delivery.
